BARRETT PUBLISHING COMPANY, SPRINGFIELD, OHIO.

TO Greet You,

Our Friends and Patrons

WITH our new Catalogue for 1895, hoping it may meet with the same hearty appreciation as those previously sent. We have spared neither pains nor money in making this book attractive and pleasing. The cover being designed by one of the finest artists in the United States, and the illustrations made from original sketches from nature of flowers cut from our own plants. We have added many large handsome greenhouses to our plant during the past year and have now one of the largest and finest establishments in the country; and are well equipped to grow healthy strong plants. We aim to offer only the best varieties. Everything is conducted under the personal supervision of the proprietors, making it less liable for mistakes to occur. However, should any error be made in filling orders this Spring, our customers may feel assured that it will be entirely unintentional, and when informed of the fact we will promptly rectify it, and make everything satisfactory if it lies in our power to do so. **Please keep a copy of your order for comparison.**

Orders Lost or Stolen,

Sometimes it happens that orders never reach us. When customers fail to receive their plants within a reasonable time, they should inform us of the fact, and at the same time send a duplicate of their order, also stating the form of remittance and date of original order.

Use Our Order Sheet, Filling all the Blanks Carefully.

In making out your order please use the convenient Order Sheet which accompanies each Catalogue. If it is necessary to write a letter in addition, let it be on a separate sheet.

Plants by Express.

We always recommend having plants sent by express, where there are many ordered, and when there is an express office near, as we can usually send much larger plants, and do not have to wash the soil off the roots, as in the case when sent by mail. When the weather is sufficiently warm we pack all express orders in light, strong baskets (which we furnish free), having the tops exposed. Plants packed in this manner will carry nicely for a great distance, and keep for a week or ten days in a fresh condition. Purchaser pays charges.

New Low Express Rates.

We call your attention to the new low express rate, which is a reduction of 20% from the regular merchandise rate, at which plants have been expressed hertofore, and also that packages of less than 100 lbs. are billed at 100 lb. rates.

Remember, Plants can be shipped at a lower rate than any other class of merchandise.

Plants by Mail.

When plants are ordered by mail, we prepay postage, delivering the plants free of all expense to any postoffice in the United States.

Orders for less than One Dollar will not be filled unless **ten cents additional** to the price of the plants be sent to pay postage. It is quite as much trouble to handle, and requires nearly as much postage, to mail a fifty cent order as it does for one or two or three dollars' worth of plants.

Our Terms Are Cash With the Order.

No order sent C. O. D. unless a remittance of one-fourth of the amount of the order be made to guarantee the acceptance.

How to Remit.

POSTOFFICE ORDERS—The safest and most convenient way of transmitting money from one point to another is by means of postoffice orders; if these are lost a duplicate can easily be obtained, and there is no danger of their being stolen, for no one can obtain money on them except the person to whom they are addressed. They can be obtained at most postoffices, but not all. The fee is but 8 cents for $10.00 and under.

EXPRESS MONEY ORDERS.—If more convenient, money can be sent in this way with perfect safety, as in case the letter is lost a duplicate can be obtained if you are careful to keep your receipt.

BANK DRAFT.—These should be drawn on New York City, and made payable to the order of McGregor Brothers. We will be responsible for money sent by any of the above methods.

LOOSE MONEY—Enclosed in a letter are at the risk of the sender.

INDIVIDUAL CHECKS cannot be received in payment for plants, as it costs us 25 cents to collect them.

POSTAGE STAMPS.—These can be sent for fractional parts of one dollar, or where small notes cannot be had. When stamps are sent get 5-cent or 10-cent, if possible, as we use more of them than any other.

References.

If you have any fears that we will not perform what we promise, we refer you to the First National Bank of this city.

THE NEW ROSE

"American Belle."

A pink-colored sport from "American Beauty," and is the grandest acquisition to the Rose family in many years. Raised by Mr. John Burton, of Chestnut Hill, one of the most successful Rose growers in this country; it has created a sensation wherever shown, and has carried first honors at the recent exhibitions in New York, Philadelphia, Boston, Chicago, Cincinnati, and elsewhere throughout the United States. Both the flower and foliage are entirely distinct from "American Beauty." The color of the flower is a deep, clear pink, almost red, without the slightest tinge of blue, even after being cut for a few days. In the bud stage the color of the flower is deeper, but as it expands the pink shade becomes pure and distinct, making it a fit companion for the "Beauty," to which beautiful variety it is an auxillary or companion, and not a competitor. The delightful fragrance of the "Beauty," the sweetest of any Rose known, is also possessed by the "Belle" in an equal degree. **Price, 35 cents each.**

THE CHARMING NEW TEA ROSE,

BEAUTY INCONSTANT.

Color bright capucine red, shaded and lined with deep carmine and bright yellow. A novel and distinct Rose. The colors are variable, and often upon a single plant there are what to the casual observer would be three different varieties of Roses. The flowers are semi-double, and the buds are long, well-formed, and very desirable for cut flowers and wearing. **20 cents each. Two year plants, 35c.**

THE NEW TEA ROSE,

GOLDEN GATE.

This magnificent Rose is a cross between the old greatly admired varieties, Safrano and Cornelia Cook, and while combining the good qualities of both is vastly more beautiful than either. It is a strong, healthy grower, excellent for both bedding and house culture. Produces a profusion of long, pointed buds, opening to very large double Roses, of creamy-white, beautifully tinted with soft yellow at the base of the broad petals, which are exquisitely bordered with clear rose. We heartily recommend it. **Price, 15 cents each. Large Plants, 25 cents.**

NEW HYBRID TEA ROSE,

PERNET'S TRIUMPH

A grand new Hybrid Tea Rose that has received the endorsement and commendation of the highest European authorities. The flowers, produced on long stems, are extra large, having broad, thick petals, and long, tapering buds, with delicious tea fragrance. Color a fine, clear magenta red, sometimes passing to bright crimson. Very striking and beautiful, and of such good substance that the flowers retain their beauty for a long time. A splendid new Rose, either for cut flowers or bedding. **Price, 15 cents. Two year old plants, 35 cents.**

NEW TEA ROSE,

Gen. Robert E. Lee.

(Introducer's description.) This is the first Rose that we have introduced, and we are sure that it will please all who try it. It is in color an orange-yellow, after the color of Ma Capucine, only richer an better. It is a good grower, has elegant, long buds, borne on long stems, and will produce more buds than any Rose we know of. It forces easily, being at its best in mid-winter. There is no variety that will compare with it in all the qualities that go to make up the ideal Rose. The color is so peculiar and rich that it attracts attention wherever seen. Try it. **Price, 30 cents each.**

PAUL MAROT

A new Hybrid Tea, with large, massive foliage, like the Hybrid Perpetual, Baroness Rothschild. The flowers are extra large, pointed buds. Color deep, rich pink, inner side of the petals deep rose. A valuable variety from the fact that it has the same hardy habit as the Hybrid Perpetual, with the ever-blooming qualities of the Tea Rose. We have not tested it in open ground; in our green houses it bloomed all summer. **Price, 25 cents.**

NEW TEA ROSE,

MADAME ELI LAMBERT

A beautiful new Tea Rose. The colors are not particularly remarkable—scarcely unusual—and yet we have no hesitation in recommending it as one of the most beautiful and valuable Roses of which we have any knowledge. The flowers are extra large, fine, globular form, very full and well built up. The French description says it is the absolute perfection of form. The color is somewhat in the way of Madame de Watteville, but deeper; rich, creamy-white, faintly tinted with pale, golden-yellow, and exquisitely bordered and shaded with soft, rosy-flesh, exceedingly beautiful and very sweet, petals large and of good substance, constant and profuse bloomer, strong, vigorous and healthy grower—in short, a magnificent Rose in every way. **Price, 15 cents each. Large plants, 25 cents.**

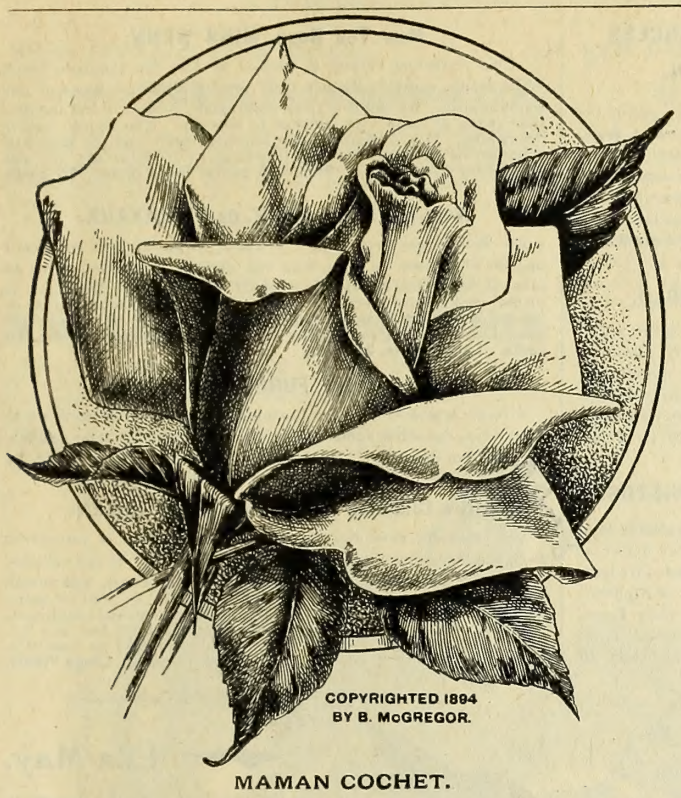
PERNET'S TRIUMPH.

February 23rd, Clear Water Harbor, Fla.

The Roses came today. They are fine plants, well rooted, and in good condition. I am well pleased.

Respectfully,

MRS. A. D



MAMAN COCHET.

THE BEAUTIFUL NEW TEA ROSE

Maman Cochet.

* * *

ONE of the best new Roses for 1895. The growth is vigorous, with rich, healthy foliage. The extra large flowers are produced on long stems, are very double, and the buds and half-expanded flowers are simply exquisite in their graceful form, delicate color, and rich fragrance. The color is deep rose-pink, the inner side of petals silvery-gray. This variety was illustrated and described in the "Journal des Roses" two years ago, and one thousand dollars was refused for the stock by the originator, Mons. Cochet. It is now introduced for the first time, and we know it will win its way with every lover of beautiful Roses.

Price, for nice plants, 25 cents each.

THE NEW ROSE

* Climbing La France. *

A decided novelty in Roses, and one we can strongly recommend to our customers. We give the description of the introducer:

"It is doubtful if, since the introduction of Gen. Jacqueminot and La France, there has been offered such a sterling novelty in Roses as the **Climbing La France.** The two varieties mentioned are conceded to be without a peer in their class, but the **Climbing La France** towers so far above all climbing Roses for the open ground that comparison is out of the question. **Price, 25 cents each.**

New Bourbon Rose * * *

❋ Mrs. Paul.

It is of strong, thrifty growth, with large, glossy-green foliage and large, fine flowers, which have the requisite substance to withstand our hot, dry summers. The color is a bluish-white, usually overlaid with rosy-pink shadings. This rich, unique coloring is one of its marked characteristics, and stamps it with a distinctive charm. The outer petals are grandly recurved, forming an excellent contrast to the camellia-like inner petals. For smoothness, richness, and finish this Rose is without a rival.

Price, 20 cents each; two-year plants, 35 cents each.

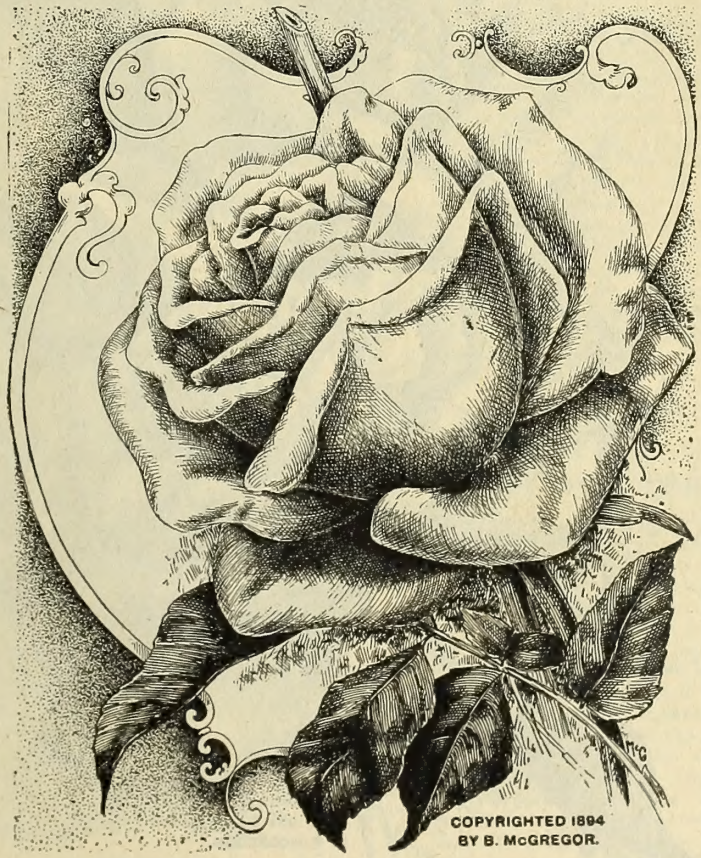
New American Rose

Senator McNaughton

(White Perle des Jardines.)

THIS fine white Rose originated with Mr. Jos. Bevis, of Philadelphia, as a sport from Perle, and is a grand variety. In foliage and growth, it is identical with Perle; the flowers are of the same form and size, while the color is an ivory white of great purity. This variety will prove invaluable to rose-growers, for it is of the same easy management as Perle, requiring the same temperature and treatment; and if there is a difference in freedom of bloom, it is in favor of Senator McNaughton.

Price 20 cents each; two-year plants, 40 cents each.



SENATOR McNAUGHTON.

SPECIAL OFFER.--Full Set of these Four New Roses for 75 cents.

New Ever-Blooming Rose, CROWN PRINCESS VICTORIA, or WHITE MALMAISON.

It is a vigorous grower, with large, fine foliage, and is one of the loveliest of all Roses. The color is a pure, waxy snow-white, sometimes has a lemon tint, and to those who desire a fine double flower when fully expanded, this will meet your wants, as it is very beautiful when full blown. Certainly a grand acquisition. Resembles that grand old Rose "Malmaison" in shape and fullness. The best white Rose we have to offer. **Price, 20 cents each; two-year-old plants, 40 cents each.**

New Ever-Blooming Rose, STAR OF GOLD.

(Etoile d'Or.) This elegant new Rose is certainly a great acquisition. Full, round flowers, of the largest size, perfectly double to the center, oftimes comes in immense clusters, blooms quickly and profusely, and besides being exceedingly beautiful is entirely distinct from all others. The color is a deep golden-yellow, with rich citron center. If you desire a large, rich, deep yellow Rose, try it. **Price, 20 cents each; two-year-old plants, 40 cents each.**

New Ever-Blooming Rose, CLIMBING NIPHETOS.

There never has been but one point that held that glorious old Rose Niphetos in the background, and that was the serious defect of its being a weak grower, and this defect is now remedied. We have a vigorous climbing growth, coupled with all the charms of Niphetos. It has always held the lead as being the most elegant of white Roses. The buds on well-grown specimens measure three inches in length, and are produced in the greatest profusion. **Price, strong plants, 20 cents each; large two-year-old plants, 40 cents each.**

New Tea Rose, MISS WENN.

This charming variety is noticed at once for exquisite color, which seems entirely distinct from almost all other Roses of our acquaintance. We call it a clear coral pink, a most novel and distinct shade of color very difficult to describe. The French call it China pink. It is certainly a very beautiful color, and the Rose will doubtless be greatly admired, as it is large, very double and full and exquisitely Tea scented. **Price, 15 cents; large plants, 25 cents each.**

New Tea Rose, SOUV. de CLAIRVAUX.

The flowers are extra large, having a deep, full form, well built up; the buds, too, are large, long and pointed, altogether giving an idea of luxuriant beauty that few Roses possess. The color is bright, pinkish rose, very rich and handsome, and shading darker or lighter, according to season and temperature; when fully open the base of center is seen to be finely shaded apricot yellow. **Price, 15 cents. Large plants, 25 cents.**

New Tea Rose, FURSTEN BISMARCK.

A very variable-colored Rose, changing from China Rose color to cherry-red, the whole suffused with lemon. A strong, vigorous, new variety from Germany. This is a very promising variety, one of the best new Roses. **Price, 15 cents. Large Plants, 25 cents.**

New Climbing Rose, WALTHAM QUEEN.

This splendid new ever-blooming Climbing Rose is introduced from England, where it has given great satisfaction. It is a valuable acquisition, particularly for the South and Pacific Coast, and though not entirely hardy in the North, it will probably do well in many situation in the Middle States. It is a strong grower and continuous bloomer. Nothing can compare with this for beauty of bud and foliage, and it literally lavishes in the greatest profusion its beautiful, rich, red flowers of magnificent size. **Price, 15 cents. Large Plants, 25 cents.**

PIERRE GUILLOT.

NEW TEA ROSE

Ella May.

This is a sport from that grand old variety "Sunset" which it strongly resembles only that the color is deeper and richer in Ella May even than it is in that elegant variety. The Ella May is a great favorite wherever known; the color is a rich golden amber or old gold, elegantly shaded with dark, ruddy crimson, resembling the beautiful tints seen in a Summer sunset; the flowers and buds are extra large, full, finely formed and deliciously perfumed; it is a strong vigorous grower and free bloomer, highly recommended both for open ground and house culture. One of the most beautiful Roses we grow; it pleases everybody. **Price, 20 cents each; two-year-old plants, 40 cents each.**

NEW HYBRID TEA ROSE

Pierre Guillot.

One of the finest and most valuable in the whole list. Bright, dazzling crimson, passing to brilliant carmine. Flowers large, very double and full, and highly scented. A healthy and vigorous grower, and a constant bloomer from June until frost. The outer petals are broad, round and decidedly recurved, showing the short, closely-set inner petals. Among the few good ever bloomers this ranks very near the front, for it is double, without a tinge of disagreeable shade, and always in bloom. We have a very large stock of nice plants. **Price, 20 cents each; large two-year-old plants, 40 cents each.**

SPECIAL OFFER—THIS SPLENDID SET OF NINE ROSES FOR $1.40.

The Grand Old Rose,

Malmaison.

This grand old variety, when used as a bedding Rose in Summer, has no equal, as it produces the most perfect flowers in the hottest weather. Its rich, flesh-colored flowers are of immense size, are produced in abundance, and have the requisite form and substance to withstand our hot, dry summers.

Price, 15 cents each; large plants, 30 cents each.

New Tea Rose

VALLE DE CHAMOUNIX

The coloring of this Rose is simply exquisite. The base and back of the petals are a bright yellow, the center highly colored with glowing copper and rose, every tint clear and bright. There is never a dissenting voice as to its beauty.

Price, 15 cents each; large plants, 30 cents each.

NEW CRIMSON TEA ROSE

MARION DINGEE.

THIS grand new Rose was raised from seed of the beautiful Countess de Casserta, crossed with Dutchess of Edinburg. Marion Dingee promises to be of extraordinary value. It is a strong, vigorous grower, making a handsome, graceful bush, with large, thick, deep green leaves. The flowers are large, beautifully cup-shaped, moderately full, and borne in wonderful profusion all through the growing season. In fact, we scarcely know of any other Rose that will produce so many perfect flowers in a given time, and whether in open ground or under glass it is a most constant and profuse bloomer. The flowers are borne nearly upright on long, straight stems, and are of excellent substance, having thick, leathery petals, holding their form and color a long time. The color is perhaps its most remarkable feature. It is a deep, brilliant crimson, one of the darkest, if not the very darkest, and richest colored Tea Rose in existence. **Price, 15 cents; two-year plants, 30 cents.**

COPYRIGHTED 1894 BY B. McGREGOR.

SOUVENIR DE WOOTEEN.

NEW TEA ROSE,

Madame Martha Du Bourg.

One of the most beautiful of the new Roses. Habit and foliage are beautiful, denoting a ready grower; the flower is large, perfectly double, and of beautiful form; the color is creamy-white, touched with carmine or pale helitrope on the edges; texture heavy. **Price, 15 cents each; large plants, 25 cents each.**

The Beautiful New Tea Rose,

Madame Pernet Duchere.

A charming new Tea Rose, canary yellow, suffused with copper; long, pointed buds on every shoot. Is a wonderful bud producer. Inclined to come somewhat single during hot weather, and when in this way is very attractive, being larger and showing their stamens more distinctly. Much finer than the famous Rugosa Roses. It is growing rapidly in favor in Europe. No other Rose compares with it in delicacy of tint. **Price, 20 cents; two-year old plants, 40 cents.**

New Tea Rose,

SOUVENIR DE WOOTTEN.

An American variety of great promise, with the following good qualities: (1) Color velvety-red, equal to Jacqueminot; (2) perfume which cannot be excelled; (3) continuous flowering qualities; (4) the most prolific bloomer in existence, every shoot containing a flower bud; (5) habit exceedingly vigorous, and in foliage quite equal to the American Beauty; (6) it never makes imperfect buds, and dark weather but deepens the color, giving it a richer shade of crimson; (7) it is a full double Rose, and is good in bud, half open, or fully expanded. Full open flowers frequently are six inches in diameter. **Price, 20 cents each; large plants, 35 cents each.**

SPECIAL OFFER.—This Superb Collection of Roses for 75 cents.

THE ROYAL NEW WHITE TEA ROSE,

KAISERIN AUGUSTA VICTORIA

This beautiful Rose has not only a royal name, but is a royal Rose as well. We have White Roses that have elegant buds, but when full blown are not all that is desired. Then again, we have White Roses that are elegant when full blown, but have poor buds. This Rose combines both these good qualities. It is a continuous bloomer, producing successive crops of buds, and formed with large petals of best substance; shows no center when fully open; color pure creamy-white. It far surpasses any other White Rose in all particulars, and has a much richer perfume. **Price, 15 cts. each; large two-year-old plants, 30 cts.**

NEW EVER-BLOOMING ROSE,

CLIMBING . . .

Perle Des Jardins

Few Roses have as firm a hold in popular favor and are so highly prized by the professional and amateur Rose grower alike as the Perle Des Jardins. It is not only admirably adapted for forcing, but thrives well in the open air, blooming freely in either case. Its large, full, well-formed, golden-yellow flowers, borne on stiff stems, make this variety especially desirable for bouquets and artistic floral decorations, while the dark and glaucous foliage of the plant furnishes an excellent setting for the fragrant, delicate-hued blossoms. Climbing Pearle is even more vigorous and floriferous than the bush form. Climbing Pearle will supercede Marechal Neil, as the bud and flower are as large and the color as deep a golden-yellow as that variety, while it is as vigorous a climber, and will produce one hundred flowers to Neil's one. It is hardy in the South. **Price, 20 cents each; large two-year-old plants, 40 cents each.**

KAISERIN AUGUSTA VICTORIA.

New Tea Rose, MAD. PIERRE GUILLOT.

Moderately vigorous in growth. Flowers large and nice shape. Color orange yellow, bordered and lined with rosy-carmine, reverse of the petals, yellowish-white. A magnificent variety, and the prettiest Rose of the set. **Price, 15c. each; large plants, 25c. each.**

New Tea Rose, The GEM; or, "THE FAIR UNKNOWN."

The Rose is identical with Marie Van Houtte, except that it is claimed to be twice the size. Of a fine, faultless straw-yellow color, with the outer petals washed and outlined with a bright rosy crimson; occasionally the whole flower will be suffused with light pink. It grows vigorously, blooms freely, and is most deliciously scented. In cool weather it almost changes color, taking on gorgeous crimson tints. A beautiful and superb Rose. **Price, 15 cents each; large plants, 25 cents.**

New Tea Rose, THE QUEEN.

A most charming Tea Rose. The offspring of that fine old Rose Souvenir d'un Amie, whose many good qualities it seems to possess in a remarkable degree. It is pure snow-white, makes good, finely-formed buds, is quite full, showing the center but slightly when fully open. The petals are thick and of good substance, opens well, is very sweet, and has proved valuable, both for forcing and open ground planting. We recommend it for extended trial, as it will be found a valuable acquisition to our list of pure white ever-blooming Roses. **Price, 15 cents each; large plants, 25 cents.**

McGREGOR BROTHERS : *Vicksburg, Miss., March 19, 1894.*

Gentlemen—The Roses came in good order and promptly. They are doing well. Thanks for Premiums. *MRS. E C*

NEW HYBRID TEA ROSE, THE METEOR.

A velvety-red ever-bloomer of the deepest glowing crimson, as fine as a Hybrid. Flower of medium size, very double and slightly recurving. A beautiful open Rose, a free bloomer, and a very excellent pot Rose. It has no tinge of violet or purple to mar its beauty. It is a vigorous, bushy grower, with healthy, bright foliage of the deepest green This is unquestionably the best dark velvety-red Rose yet produced. Grand, both in bud and flower. **Price, 15 cents each; large two-year-old plants. 30 cents each.**

THE METEOR.

TEA ROSE, MADAME WELCH.

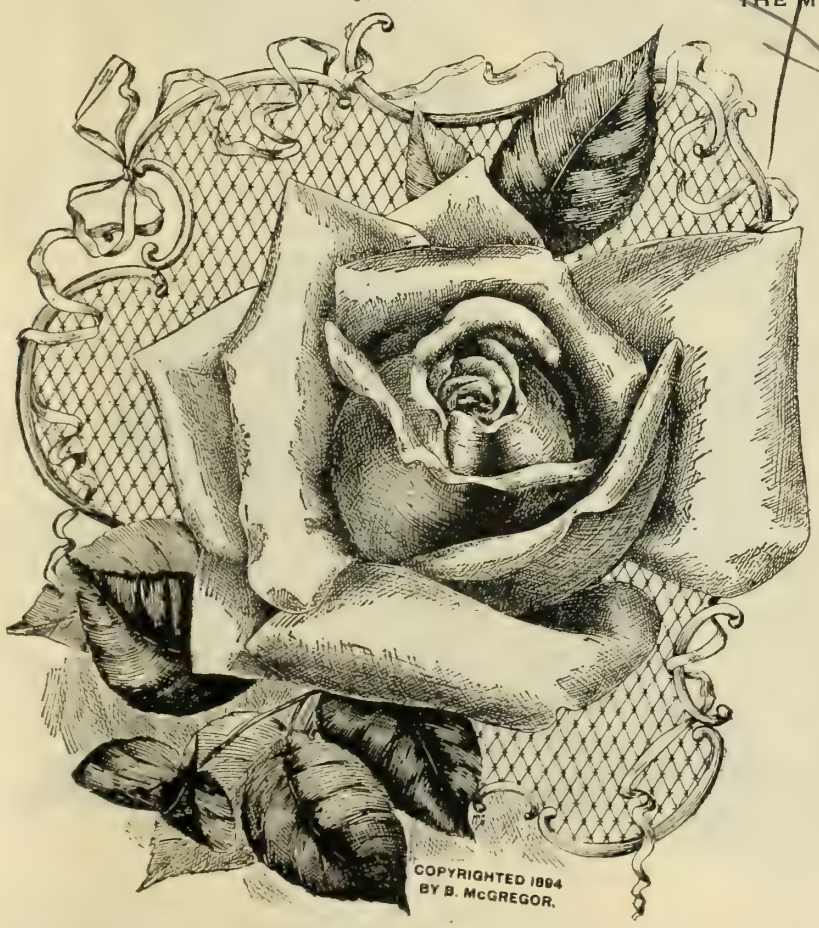
An extra fine variety, very large, double, and of beautiful rounded form, a soft, pale yellow, sometimes cream, with short inner petals of glowing orange and copper Not to be forgotten if once seen. Charming. **Price, 10 cents each; large plants. 25 cents each.**

THE GREAT NEW ROSE, CRIMSON RAMBLER.

This superb novelty is of the Polyantha class and was originally received from Japan, and introduced into England in the Fall of 1893. We were so favorably impressed with its value, that we immediately procured plants and commenced to propagate it on a large scale

The flowers are produced in great pyramidal panicles or trusses, each carrying from thiaty to forty blooms, the ihdividual flowers measuring about one to one and a half inches in diameter and remainieg perfect on the plant for upwards of two weeks with their freshness of color unimpaired. The foliage is bright green and glossy, and contrasts finely with the bright crimson of the flowers. It is said to be exceedingly hardy, having successfully withstood the test in exposed situations of two very severe winters in England. We can recommend this novelty in the strongest manner as being a new Rose of great importance and value.

This rose received Gold Medals from the Natisnal Rose Society of England, and the Fational Horticultural Society of France, the International Horticultural Exposition at Earl's Court, as well as numerous first-class certificate. **Price, strong plants, 40 cents.**



SOUVENIR DE LADY ASHBURTON.

New Tea Rose

SUNSET.

It is a "sport" from that grand variety Perle des Jardins, which it strongly resembles perfumed. The color is a remarkable shade of rich golden amber, elegantly tinged and shaded with dark ruddy copper, intensely beautiful, and resembling in color a splendid "afterglow." Sunset is a constant and profuse bloomer, and taken altogether, is one of the finest Roses recently introduced. **Price, 20 cents each; large plants, 40 cents each.**

● THE NEW TEA ROSE, ●

SOUV. DE LADY ASHBURTON.

Originated by one of the famous Rose growers of Paris, France, and named in honor of a noted English lady, the wife of Lord Ashburton, one of the most noted English diplomats of the present time. The flowers of this superb Rose are exceedingly large and full, and of very beautiful, and can perhaps be best described as a fine shade of rich coppery red, delicately suffused with pale orange yellow; reverse of petals fine rosy fawn color. It is highly scented with the true Tea Rose order, heightened or intensified, as the French description says, with the delicate perfume of peaches and apricots. **Price; 20 cents each; large two-year-old plants, 10 cents each.**

New Orleans, La., March 2, 1894.

GENTLEMEN:—The plants arrived safely yesterday and I desire to thank you for your promptness and accuracy. I am more than pleased. *Yours truly,* *J. B. P.*

MD. CAROLINE TESTOUT.

THE NEW HYBRID TEA, MADAME CAROLINE TESTOUT.

Probably no Rose stands higher in public estimation to-day than La France, and when we say that this elegant new Rose is a close counterpart of La France we have said enough to insure its being planted by vast numbers of people. We don't know that it is any better than La France, but it is decidedly deeper and more brilliant in color, and if it is as good in other ways it is a wonderful Rose. It seems equally as healthy, and is certainly more vigorous in growth, which is a great recommendation. The petals are large, and of the elegant La France form; exquisitely edged and bordered with clear silver rose. Both flowers and buds are extra large and of very elegant form; the color is brilliant satiny-rose, deepening at center to clear red. It is of excellent substance, keeps its color well, and its splendid, large, globular flowers impress everyone with a sense of its superiority and great beauty. **Price, 20 cents each; large two-year-old plants, 40 cents each.**

NEW HYBRID TEA ROSE, VISCOUNTESS FOLKESTONE.

No Rose in our Catalogue has grown in popularity during the past year like Folkestone. It is unsurpassed among light colored varieties. It is graceful to the last degree, with strong, healthy foliage. The flower is delicately tinted flesh, almost white, and lustrious as satin. When full blown it is like a white Pæony, but without a suggestion of stiffness. We have measured flowers of this variety six to eight inches in diameter. It is sweet-scented. Don't fail to include the Folkestone in your order. **Price. 15 cents each; large two-year-old plants, 30 cents each.**

NEW TEA ROSE SOUV. de VICTOR HUGO.

A bright China Rose, with copper-yellow center, ends of petals suffused with carmine. A charmingly beautiful combination of coloring, as each color blends nicely with the other. This variety ranks with the best, and is a Rose of decided merit. The relationship to Duchess de Brabant assures us of a free bloomer, and in size and length of bud equal to the best Teas. Of decided merit. **Price, 15 cents each; large two-year-old plants, 30 cents each.**

New Rose, Henry M. Stanley.

This grand new ever-blooming Rose was raised from Madame Lambert and Countess Riza du Parc, and named in honor of the great African explorer, and is recommended as a charming variety of unusual beauty and permanent value. The color is a rare shade of amber rose, delicately tinged with apricot-yellow towards the center. Reverse of petals clear buff rose. The flowers are of good substance, extra large, finely formed, and very full and fragrant. **Price, 15 cents each; large plants, 25 cents.**

NEW TEA ROSE, PRINCESS BEATRICE.

A vigorous grower, with stiff, erect wood, thick, handsome foliage, and very free flowering. Flowers well carried on long, stiff stems; large, full and of the most perfect form; petals round, broad and very thick; outside petals, pale yellow center, rich golden yellow; edge of petals lightly laced with bright rose. **Price, 15 cents each; large plants, 30 cents each.**

ETOILE DE LYON— STAR OF LYON.

This magnificent Tea Rose is a rich golden-yellow, a strong, healthy and vigorous grower, immense bloomer, bearing flowers and buds early and late. The flowers are very deep, rich and full, excellent substance, very sweet. Surely one of the very best and most beautiful yellow Tea Roses for general planting ever introdnced. Remarkably hardy, both as to heat and cold, frequently standing the Winters here uninjured in open ground without protection, and blooming nicely all through the hottest part of the Summer. **Price, 15 cents each: two-year-old plants. 30 cents each.**

NEW TEA ROSE, ERNEST METZ

A beautiful new Tea. Robust in growth, but dwarf in habit Flower very large when open, long, pointed buds, produced on long stems. Color rosy-carmine, with the color heightened in the center. **Price, 15 cents each; large plants, 25 cents each.**

New Golden-Yellow Tea Rose, MEDIA.

We place this elegant Rose first in the list of new Roses for several reasons. In color it is a deep golden-yellow. There is no denying the fact that yellow and white Roses are admired by everyone, but the yellow has the more admirers of the two. The size and shape is all that could be desired, full, round flowers of the largest size, perfectly double to the center, and the fragrance is elegant. The growth is vigorous, while the foliage is of that beautiful tint of green that goes so well with yellow. If you have heretofore been disappointed in getting a yellow Rose that pleased you in particular, don't fail to try this one, as it will not only win your favor, but retain it. **Price, 15 cents each; large plants, 25 cents each.**

NEW TEA ROSE C. NABONNAND.

A very strong, rampant growth, not climbing. Flowers large, nicely formed, petals unusually large. Color rosy-carmine shaded with silvery-yellow. Marvelously delicate in its shadings. **Price, 15 cents each; large plants, 30 cents.**

A fine grower, flowers large and very double, with high center and long buds. Color a soft China Rose, changing to a bright, deep carmine of easy shading; an extra good Rose, and very sweet. Much superior to Luciole, which it resembles, but of better habit and growth, and much freer in bloom. **Price, 15 cents each; large plants. 25 cents.**

NEW HYBRID TEA ROSE MRS. JAS. WILSON.

Similar in shape to Catherine Mermet; pale yellow, tipped with rose pink, a strong and vigorous grower, and will prove to be valuable. All who know that old favorite, Catherine Mermet, will be pleased with this Rose. **Price, 15 cents each; large plants, 25 cents each.**

THE PRETTY NEW TEA ROSE

SAPPHO.

Buds fawn color, suffused with rose, the ohening flowers shaded yellow and tawny buff, center deep, bright yellow, large full and globular. It produces blooms with extraordinary profusion. even for a Tea Rose. The petals large and of much substance. A splendid Rose to keep after being cut. New Tea Rose, SNOW FLAKE.

It is a lovely new white Tea—the freest flowering Rose we have ever seen. The Rose was introduced by C. Straus & Co., of Washington, D. C., and by them grown in large quantities for cut flowers, they claiming it the most profitable white Rose they grow; that they had counted 153 buds and flowers on one plant in a single day, and the plant less than a year old. Nice young plants of this novelty for **15 cents each; large plants, 25 cents each.**

PEARL OF THE GARDEN.

Hardy, Ever-Blooming Rose,

Mrs. De Graw.

Every one wants a Hardy Ever-Blooming Rose, and when our attention was called to this grand variety we at once took steps to procure a stock of it. Following our usual practice, we gave it a thorough trial before offering it, and we are glad to say that it has fully justified the high opinion formed of it when first seen by us. It is with the greatest pleasure, therefore, we announce to our customers that we can confidently recommend it as being entirely hardy, equalling the tender sorts in the profusion of bloom. From early Summer until frost, it may be depended upon to produce flowers in abundance. In color it is a rich, glossy pink, delightfully fragrant, and is such a strong, vigorous grower that it is almost invulnerable against attacks of the insects which usually destroy some of our finest Roses; thus it is certain to be unequaled for the garden or cemetery. A royal Rose. It has wonderfully prolific blooming qualities, and every shoot is loaded with flowers.

Price, 20 cents each; large two-year-old plants, 40c. each.

New Tea Rose,

PRINCESS SAGAN.

A STRONG-GROWING ROSE with small, closely-set foliage and medium-sized flowers of the brightest scarlet and of velvety texture. A single bud or blossom will catch the eye at a great distance, so brilliant is the color. It is as free in bloom as Bon Silene, and unmatched in color, which fully atones for its lack of size. One of our customers in California says she is kept busy by people asking what Rose this is.

Price, 15 cents each; large two-year-old plants, 30 cents each.

New Tea Rose,

CLEOPATRA.

An extra large Rose, filled with large petals, long and somewhat pointed buds, color a soft, shell-pink throughout. This magnificent Rose has received a first-class certificate from the Royal Horticultural Society of England.

Price, 20 cents each; two-year-old plants, 40 cents each.

The Beautiful Pearl of the Garden

(Perle des Jardines.)

The one Tea Rose which you cannot possibly do without. It has absolutely no weak point, but is a perfect and popular Rose. The color is faultless, whether the waxy petals show the rich cream tint of cool weather, or take richer golden shades which a warmer sun gives them. The form of the bud is rich, rounded and luxuriant. It is only equalled in beauty by the open Rose, which is full to the center and large. It is no shy, creeping plant, but is fairly riotous in growth, sending out quantities of beautiful foliage, thick, glossy and dark, every branch being tipped with the dark reddish-maroon of the young shoots, and bearing its buds high above the leaves. **Price, 15 cents; large plants, 25 cents.**

New Tea Rose, MADEMOISELLE FRANCISKA KRUGER.

The striking color of this handsome Rose places it at once in the front as a bud producer in the open air. It is closely allied to Catherine Mermot, and resembles it in everything save color. In its shadings of deep coppery-yellow it stands unique and distinct from all others. The flower when open is of good size and very symmetrical. **Price, 15 cents each; large plants, 25 cents each.**

New Tea Rose, Marquis de Viviens.

A beautiful new Tea Rose, blooming without cessation and growing with great freedom. Long in bud and broad when open. A bright carmine at the edge of the petals, soon graduating into light rose and becoming lost in the pale yellow of the center. A bright and very showy Rose of the Brabant section, but very highly colored. **Price, 15 cents each; large plants, 25 cents each.**

Chattanooga, Tenn., Aug. 20, 1894.

Gentlemen: The Roses and Chrysanthemums are doing well and I am satisfied with them in every respect. My Roses are as fine as I ever saw. Very truly,

J. K.

MARECHAL NEIL.

THE FAMOUS CLIMBING ROSE

MARECHAL NEIL.

A Rose so famous as to really require no description. Its magnificent golden-yellow buds are worn the world over, they illustrate the globular form in its last perfection, and are almost massive in dimensions. The reports from Southern growers tell of single plants showing one and two thousand blooms of Marechal Neil at a time. It is almost universally held to be the finest climber for indoors or out, where the climate admits of its cultivation. This is one of the Roses that starts rather slowly, and for that reason the best success will be had with the plants priced at 25 and 50 cents, although one of our customers wrote us from Louisiana that a small ten cent Marechal Neil bought of us in the spring, made strong shoots thirty feet in height by fall. **Price, nice well established plants, 10 cents; larger at 25 cents; extra large, 50 cents each.**

NEW CLIMBING ROSE

Reine Olga De Wurtemburg.

A splendid Rose, and should be grown where the Marechal Neil succeeds. This variety, as grown in the south of France, is simply indescribable. The people in the South would do well to employ this beautiful sort for covering verandas and trellises. Color, a rosy-carmine, suffused with yellow. **Price, 15 cents; large plants, 25 cents.**

New Ever-Blooming Climbing Rose, Elsie Beauvillaine.

A variety recently imported from France, which gives promise of becoming valuable, especially for southern states, where it will be entirely hardy. It is a very strong grower, and produces deep buff-colored flowers, very similar in color to the well-known Sunset. **Price, 25 cents.**

STRONG CRAFTED PLANTS OF MARECHAL NEIL, $1.00 EACH.

THE NEW SET OF RAINBOW ROSES —FOR— 75 CENTS

"RAINBOW."

CALIFORNIA'S NEW STRIPED ROSE, "RAINBOW."

This new Rose from California, which no doubt will be extensively planted, was awarded a silver cup by the State Floral Society. The color is a lovely shade of deep coral pink, striped and mottled in the most unique manner with intense crimson and elegantly colored with rich golden amber at center and base of petals. It makes beautiful buds, and the flowers are extra large, very sweet, and of great depth and substance. **Price, 15 cents each; large plants, 30 cents each.**

Tea Rose, Cornelia Cook.

The buds are most beautiful, of immense size, and are borne up high on massive stems, and with their round, full, heavy form, carry an air of grace and dignity quite unusual. The flowers are the clearest, snowiest white, and are arranged in the most faultless and symmetrical manner. A magnificent Rose. **Price, 10 cents each; large two-year-old plants, 30 cents each.**

New Red Tea Rose, Princess Hohenzollern.

A very strong, vigorous grower, with beautiful foliage, dark and large; flowers very large, more than semi-double, of perfect form, often produced in clusters. Color a bright, deep, satiny-red, with lighter center. **Price, 15 cents each; large plants, 25 cents each.**

NEW TEA ROSE, WHITE PERLE DES JARDINS.

Lovers of that grand Rose, "Perle des Jardins," will be glad to learn that we have now a pure ivory-white "Pearl of the Gardens." It has foliage darker and rougher than Perle, throws up long, slender, stiff cones, each one bearing a pure white bud of something more than medium size, and quite upright. Every flower can be cut with a very long, closely foliaged stem, which we consider a strong point of beauty in a Rose. It has a delicate Tea fragrance. We think that every lover of white Tea Roses will be delighted with White Perle. It will be found totally distinct from Bride, or any other white Rose. This is surely a magnificent Rose, as each year's trial we give it only enhances its value in our estimation. **Price, 20 cents each; large two-year-old plants, 40 cents each.**

New Tea Rose, Vallee de Chamounix.

The coloring of this Rose is simply exquisite. The base and back of the petals are a bright yellow, the center highly colored with glowing copper and rose, every tint clear and bright. There is never a dissenting voice as to its beauty. **Price, 15 cents each; large plants, 30 cents each.**

Tea Rose, Madame Etienne.

Rosy pink on edge of petals, shading to light rose; center sometimes a flesh white; outer petals very large and nicely arranged with smaller inner petals; large buds of fine form, and very fragrant. A most persistent bloomer. **Price, 15 cents; large plants, 25 cents.**

Galveston, Texas, March 4th, 1894.

Sirs: The Roses and Plants were received in beautiful order, perfectly fresh and green.
Respectfully,

Mrs. A. H. C.

THE THREE HERMOSA ROSES

FOR 30 CENTS.

WHITE HERMOSA.

NEW TEA ROSE,

The White Hermosa

(Marie Lambert.)

This is a lovely white Rose, a pure Tea, but a foreign seedling, the freest flowering white Rose we have seen. It will be especially useful in set designs. For a pot plant it cannot be excelled, as it possesses every good quality of a pot Rose. We counted on one plant one hundred and forty-three buds and flowers in a single day, and the plant was only nine months old. It can be used in place of white Carnations for set pieces at an immense saving, because it can be bloomed profitably at one dollar per one hundred buds. Not only will cover twice and three times the space in a funeral design for instance, that a Carnation covers, but it will give greatly superior results. Try it. **Price, 15 cents; large plants, 25 cents.**

THE NEW

YELLOW HERMOSA ROSE,

(Coquette de Lyon.)

No Rose like it for freedom of bloom The plant is a fine grower and carries numbers of flowers on every shoot. A fine yellow Rose, large, not at all formal, but very attractive. Called the yellow Hermosa from its free flowering character. We do not know of any Rose that will give the satisfaction that this variety will and we heartily recommend it. **Price, 15 cents.**

The Old Ever-Blooming Rose, Hermosa.

We believe the Hermosa is the best known in the entire Rose family, and a universal favorite. Hardy as a lilac bush and as free-flowering as the geranium, it combines everything most desirable in a Rose. The flower is cupped, finely formed and full, color the most pleasing shade of pink, soft but deep and very fragrant. We have a large and fine stock of this standard variety. **Price, 10 cents.**

TWO BEAUTIFUL NEW ROSES,

BRIDE AND BRIDESMAID

FOR 25 CENTS.

WHITE TEA ROSE THE BRIDE.

This is decidedly the most beautiful white Tea Rose. It is a sport from Catherine Mermet, with which it is identical in growth and shape of flowers. The flowers are very large and double, on long stiff stems, of fine texture and substance, and last a long time in a fresh state after being cut, making it one of the best varieties for corsage wear or bouquets. During extreme hot weather it becomes a pinkish-white, at other times a beautiful pure white. **Price, 10 cents; large plants, 25 cents.**

NEW TEA ROSE BRIDESMAID.

Here we have a new Rose, a sport from that old standby, Catherine Mermet. This new variety retains all the good qualities of the parent, besides adding charms not possessed by the sweet Mermet. All know that Catherine Mermet takes precedent as a pink Rose. More plants of it are cultivated by the amateur, and more cut bloom is sold by the flower dealer than any pink Rose. Why? Because the bud is of exquisite shape and contour, so solid and firm, and the stems are so long and stiff that no other Rose will compare with it in keeping qualities after being cut. It is about two shades deeper in color—just enough to make it bright; and it is the same color all the time under every condition of weather and surroundings. We have a good stock of this valuable Rose, and offer it with confidence. **Price, 20 cents each; large two-year-old, 35 cents.**

CHAMPION OF THE WORLD.

NEW ROSE,

"CHAMPION OF THE WORLD."

THIS is an all around good qualities the greatest Ever-Blooming Rose in cultivation, especially for Winter blooming. It is the champion bloomer. It commences to bloom as soon as potted from the propagating bench, and continues in the greatest profusion all the time, both Summer and winter. It is claimed that one plant of it will produce more flowers during the year than ten plants of any Tea Rose. It is always in full bloom. Plants which have bloomed all Summer in the garden may be potted in the Autumn, and they will immediately start new growth, and bloom profusely all Winter in any window. The blossoms are perfectly double to the center, and of the most perfect shape, both in bud and blossom, while its color is a degree of loveliness which few roses can equal, being a rich, deep, rosy pink, darker and richer than Hermosa, and a shade the delicate richness of which is seldom seen. Its size is very large for an ever-bloomer, often as large and fine as La France, or the best Hybrid Perpetual. For Winter blooming this Rose surpasses all others. It will flourish and bloom profusely where all other sorts fail, and is just what has long been wanted, a fine, free flowering Rose for window culture during Winter which will succeed every one. **Price, 25 cents each; large two-year-old plants, 50 cents each.**

THE GREAT NEW HYBRID TEA ROSE,

NEW TEA ROSE.

SOUV. de VICTOR HUGO.

A bright China Rose, with coppery-yellow center, ends of petals suffused with carmine. A charmingly beautiful combination of coloring, and each color blends nicely with the other. The variety ranks with the best, and is a Rose of decided merit. The relationship to Duchess de Brabant assures us of a free bloomer, and in size and length of bud equal to the best Teas. Of decided merit. **Price, 15 cents each; large, two-year-old plants, 30 cents each.**

New Tea Rose, THE WABAN.

A most valuable Rose. It can be described as a red Mermet. It is a sport from Catherine Mermet, and identical with it except in color, which is a rich, deep, bright pink, retaining its color in the darkest cloudy weather. It has received the silver medal of the Massachusetts Horticultural Society, and a certificate of merit from the Pennsylvania Horticultural Society, where it has been exhibited as an extra fine new Rose. **Price, 15 cents each; large plants, 35 cents each.**

New Tea Rose, VISCOMTESSE de WAUTIER.

Rosy yellow upon the exterior of the petals, rosy white in the interior. The center is a dark rose, and this color is often lined into the lighter shades above, producing a charming effect. A grand Rose. **Price, 15 cents each; large, two-year-old plants, 30 cents each.**

AMERICAN BEAUTY.

This new Rose, of American introduction, has attained the greatest popularity in the shortest time and created the greatest excitement of any Rose ever offered in this country, and this without any special attempt to advertise it, the introducers relying on its great value, which is apparent at a glance. It belongs to the hardy perpetual class, but it blooms almost as constantly as the Teas. There is no doubt but that it is a good Rose for out-door culture. It is a strong, vigorous grower, and a very free bloomer. The buds are extra large, very full and double, and exceedingly sweet. The color is a dark, rich crimson, and most exquisitely shaded. The flowers are very lasting after cutting, keeping fresh and bright from one to three weeks. **Price, 20 cents each; two-year-old plants, 40 cents.**

COUNTESS ANNA THUN.

A strong, bushy grower, with flowers freely produced on short, stiff stems; shows the characteristics of a good bedder. It is of immense size, and of the most lovely and perfect form imaginable. Color a beautiful citron yellow, with coppery and peach center, shading to orange-salmon and silvery-pink, the colors blending nicely. **Price, 15 cents each; large, two-year-old plants, 40 cents each.**

New Tea Rose, JEANNE CUILLAUMEZ.

A very vigorous grower. Flowers large and double, of good form, with beautiful long buds. Color clear red, touched with salmon; center coppery-red, with pale silvery shading. Received a first-class certificate from the Lyons Horticultural Society. **Price, 15 cents each; large, two-year-old plants, 30 cents each.**

A PAGE OF

LA FRANCE ROSES

The Four Beautiful and Distinct Varieties for 50 Cents. Large Two-Year Size, $1.

WHITE LA FRANCE.

(AUGUSTINE GUINNOISEAU.)

HERE we have a beauty indeed, one we can recommend to all, whether for out-door culture or for pots in the house in Winter. If you were to ask us to select six of the very finest Roses for you, we should be sure to include it in the six. Do you know La France? If so, you know this elegant new Rose. It is identical with La France, except the color. It is pearly white, sometimes tinted with fawn. We predict for it far more popularity than La France ever attained. Don't fail to get this new Rose. **Price, 15 cents: large size, 30 cents.**

STRIPED

La France

Madame Angelique Veysset.

Everybody knows the beautiful La France—a Rose that has always had such a ready sale that the demand has never been fully met. Striped La France combines all the good qualities of LaFrance in growth, fragrance, shape of bud and flower; in fact, differs from it except in two points. First, it is freer in bloom than the parent; second, it is nicely striped, the marking being plain and distinct, the variegation a beautiful bright rose on a satin-pink ground. This Rose has received several certificates of merit, as shown before the Rose societies of this country as well as Europe.

Price, 10 cents; large size, 30 cents.

THE RED LA FRANCE OR DUCHESS OF ALBANY.

Pink La France.

We have always given this the first place—the Queen of Roses. Accounts come to us from all quarters every year describing the great profusion of its bloom from June until frost, and extoling its fragrance and immense size. It is of superb form, and double as a Rose can be. No variety can surpass it in delicate coloring—silvery rose shades, with pink. It has a satin sheen over all its petals. It is most universally regarded as the most useful of Roses, for it is hardy beyond question. It blooms continuously. The flower is large, finely built, endures for a great length of time, is exquisitely colored, and fragrant in the highest degree. Another Rose of which one cannot have too many. **Price, 10 cents; large size, 30 cents.**

The Red La France.

(Or Duchess of Albany.)

We have no hesitancy whatever in saying to our customers that this Rose stands at the head of all Roses, not excepting La France. What we wish to impress is the fact that as a Rose for all purposes it has no peer. It is identical with La France, excepting in three points. Those are: a more vigorous growth, a larger and more expanded flower, and a deep, even pink in color; not shaded, but what is called a solid color. Ladies prefer it on account of its beautiful color to any other Rose for personal adornment, as it shows up well against either light or dark dress goods to a charming advantage. The growth of the plant is exceedingly vigorous, and the flowers, which are thrown up well above the foliage, are produced in extraordinary profusion, the plant being covered with handsome flowers. You will make no mistake to plant this Rose largely. **Price, 15 cts.; large size, 30 cts.**

NEW HYBRID TEA ROSE,
Madame Schwaller.

Like Puritan this Rose has the strong, firm growth of the Hybrid Perpetuals, the same form and finish of flowers, being especially beautiful when full blown. It is very free in bloom, and has the fragrance of the old June Roses. The color is a bright rosy flesh, paler at the base of the petals and deepening on the edges. Apt to come in clusters, which are excellent for cutting. A Rose from which we hear very flattering reports from all directions. This grand Rose has more perfume than any that we offer. Try it. It is magnificent. **Price, 15 cents each; large, two-year-old plants, 30 cents each.**

CLOTHILDE SOUPERT.

NEW TEA ROSE,
LOUSIA de la RIVE;

This elegant new Rose has been thoroughly tested and has given great satisfaction; it is a robust grower and a constant and a profuse bloomer; the color is soft rosy blush, delicately shaded with salmon and fawn; the flowers are quite large, very full and delightfully sweet. **Price, 15 cents each; large plants, 25 cents each.**

The Grand Red Tea Rose,
PAPA CONTIER.

A red Tea, of fine crimson shade and SILKEN texture, (as distinct from velvety texture.) The bud is of fine size and graceful form. Extremely free, both in growth and bloom. Very long and beautifully leaved, stems can be cut, the foliage being very dark and heavy. One of the best, and a perfect bedder. **Price, 15 cents each; large plants, 25 cents each.**

LOUISA DE LA RIVE.

The Superb New Ever-Blooming Rose,
CLOTHILDE SOUPERT.

This Rose originated with Messrs. Soupert & Notting, of Luxembourg, Belgium. It is a strong, vigorous grower. The flowers are large, double and beautiful in form, with the style of the beautiful Rose "Ball of Snow." The flowers are borne in sprays and the color blends from a soft shell pink to a pure satiny white. Roses with both of these colors are produced on the same plant at the same time. This Rose is destined to take high rank as a pot Rose for bedding purposes, and with the increased taste for Roses in clustered sprays will be profitable as a cut-flower. No other Rose approaches it in flowering qualities, not even the grand old Hermosa. **Price, 15 cents each; large plants, 25 cents each.**

New Tea Rose, Luciole

A new French Tea Rose of much more than ordinary merit, very bright carmine rose, tinted and shaded with saffron, the base of the petals being copper yellow, with reverse a rosy bronze, large, pointed, very double and very sweet-scented; flower stem roughened like a Moss Rose, the coloring is entirely new and very brilliant. The open red Rose reminds one of a ripe red peach. Certainly no Rose equals this in its delightful coloring and size of buds. **Price, 20 cents each; large two-year-old plants, 40 cents each.**

MADAME DE WATTEVILLE.

EVER-BLOOMING ROSE, Madame de Watteville.

This grand new ever-blooming Rose is one of the most beautiful varieties we have ever sent out, and is very largely planted by those who know its beauty. The color is a remarkable shade of creamy-yellow, richly colored with rosy-blush. The petals are large and each one widely bordered with bright crimson, which gives it a very striking and beautiful appearance. The flowers are large, very full, and highly perfumed. This is the Tulip Rose, so-called because of the feathery shading of bright rose around the edge of every petal, the body of the petal being creamy-white and of heavy texture. Sure to please. **Price, 15 cents each; two-year-old plants, 30 cents each.**

DUCHESS DE BRABANT; Or, Comtesse de la Barthe.

This Rose combines exquisite perfume, beautiful coloring, and a matchless profusion of flowers and foliage. How shall we describe its coloring? Soft, light rose, with heavy shading of amber and salmon. Quite hardy, and in every respect it is admirable. **Price, 10 cents each; large two-year-old plants, 30 cents each.**

Christine de Noue.

(The Double Papa Gontier.) This beautiful new red Tea is a very charming Rose, and promises to be one of the best of recent introductions. It is particularly valuable because red has been a very scarce color among Tea Roses, and this one seems exceptionally fine. It is a splendid grower, making a large-sized, graceful bush, with bright, deep green foliage. A constant and very free bloomer. **Price, 15 cents; large, two year plants, 35 cents.**

NEW TEA ROSE MADAME ETIENNE.

One of the very finest clear pink Tea Roses. The form of the flower is quite similar to that of Beatrice—that is, the petals recurve, giving it the shape of a Camellia. The texture is heavy, and the color is a warm, yet delicate pink, slightly deeper on the edge of the petal. A very beautiful variety, and freer in bloom than Catherine Mermet. This Rose is styled the dwarf Mermet by the French growers. **Price, 15c. each; large two-year-old plants, 25c. each.**

THE RARE BOURBON ROSE RED MALMAISON.

(Souvenir de la Malmaison a Fleurs Rouges.) This beautiful Rose is identical with Souvenir de la Malmaison except in color, which is a clear, deep, rich scarlet. A grand and handsome Rose in every respect. **Price, 15 cents each; large plants, 30 cents each.**

NEW TEA ROSE MME. SCIPION CROCHET.

TWO ✣ FINE ✣ HARDY ✣ ROSES.

KING SWEDEN

THE BLACK ROSE.

This wonderful new Hybrid Perpetual Rose was raised in France. It is an extra strong, vigorous grower; flowers large and double, and of the darkest velvety crimson-black color yet seen in any Rose. It is very sweet scented and of perfect shape, and the richest colored sort yet introduced. It blooms when very small. **Fine plants, 25 cents each; extra large plants, 50 cents each.**

VICK'S CAPRICE

This grand novelty is a true Hybrid Perpetual Rose, being a sport from the H. P. Rose Archduchesse d'Autriche, therefore perfectly hardy. We esteem this one of its greatest advantages, as it may be grown to perfection by the amateur equally as well as by the professional florist. The flowers are large, ground color, soft satiny pink, distinctly striped and dashed with carmine. It is beautiful in the bud form, being quite long and pointed, also showing the stripes and markings to great advantage, making it a valuable and desirable article for cutting. The price at which we offer this wonderful novelty is remarkably low. **Price, 20 cents each; large two-year-old plants, 40 cents each.**

NEW YELLOW HARDY ROSE,— GLOIRE LYONAISE.

Bear in mind that this Rose is entirely hardy, ever-blooming and delightfully fragrant. **Price, 20 cents each; large two-year-old plants, 40 cents each.**

NEW HARDY EVER-BLOOMIING ROSE, DINSMORE.

It is a vigorous, healthy Rose, of dwarf, branching habit, and is simply loaded with flowers all Summer long, being even more profuse than most of the tender 'ever-blooming' Roses. The flowers are large, perfectly double, and of a dazzling, scarlet crimson color, and have the rich, spicy fragrance peculiar to the best Hybrid Roses. We have proved the 'Dinsmore' to be entirely hardy, and can recommend it as being the finest garden Rose ever offered. The Famous Mary Washington Hardy Climbing Rose.

This famous old Rose was newly introduced to the public last year. The introducer gives the following interesting account of its origin and history. He says: "It is a historic fact that one hundred years ago George Washington, the greatest and most honored American that ever lived, raised in his garden at Mount Vernon a seedling rose, which proved to be a hardy, perpetual blooming climber, producing large double snow-white blossoms in great profusion from June until frost. In this lovely Rose our first President took special delight, and named it after his mother, Mary Washington. The original bush can yet be seen growing in the grounds where its world-famed master planted it in his garden at Mount Vernon. It is a strange thing that this most valuable of all Roses has stood a hundred years without ever being propagated or finding its way to the public, yet it is a fact that we are the first to offer as New, the Old American Rose, the first and finest of its class, and raised and named by him 'who was first in peace, first in war, and first in the hearts of his countrymen.' We may well plant and cherish the Rose which our great Washington left us as the truest and best emblem of our remembrance and appreciation of his greatness We hope in time to see it trailing over the door or gateway of every home in the land, and aside from the fact that this Rose was raised and named by George Washington, it is one of the most valuable sorts that has been introduced for many years. A hardy perpetual blooming climber has long been needed. Its flowers are medium sized, pure white, perfectly double to the center, sweet, and borne in endless numbers all Summer. It is a vigorous and rapid grower, and must at once become a general favorite. It makes a great profusion of fine buds, which are borne on long stems and usually in large clusters. **Price, nice strong plants, 15 cents each, two for 25 cents; large two-year-old plants, 25 cents each.**

HARDY CLIMBING PRAIRIE ROSES.

In the South many varieties of the ever-blooming Roses are used as climbers

OUR BEAUTIFUL NEW MOSS ROSES.

ESPECIALLY admired for the beautiful moss covering. Moss Rose is a strong, vigorous grower, perfectly hardy and therefore justly esteemed as very desirable for out-door culture in open ground. Most varieties bloom but once in the season, and usually not in the first year, but the flowers and buds are very handsome, remain in bloom a long time, and are highly prized wherever beautiful Roses are known. They like rich ground and are much improved in beauty and fragrance by liberal manuring and good cultivation, but they bear hardships and neglect well and bloom profusely. Being difficult and slow of propagation, the price is higher than for other Roses.

Price, except where noted, 20 cents each, six for $1.00. We have large two-year plants for immediate effect, at 35 cents each, three for $1.00.

They are of shrubby, compact growth, bloom profusely all through the season, and are very desirable for bedding, as well as for edging, borders, etc. They are moderately hardy but should have a covering of leaves or litter just before Winter begins.

Little Pet—As it opens the bud appears of bluish color, but it is soon seen that it is only upon the back of the outer row of petals, the other portion of the rose being pure white.

Mignonette—A lovely Fairy Rose, full, regular flowers, perfectly double and delicately perfumed. Its color is a clear, delicate rose, with a frequent and peculiar intermingling of white that makes its appearance still more antique and pleasing.

Paquerette—The flowers are pure white, about one inch in diameter, flowering in clusters of from five to fifty blooms. Very full, prettily formed, recalling blossoms of the double flowering cherry, and fully equals the double white Primrose in profusion of bloom.

Madamoiselle Cecil Brunner—The flowers are of a salmon-pink, with deep salmon center, borne in large clusters and delicately perfumed. Splendid bedder.

George Pernet—A strong growing dwarf variety, forming a perfect round bush. It is continually in bloom, the flowers being quite large for this class; the color is bright rose with touches of yellow, and passes to peach-blow with silvery-white shadings.

Minature—This is the smallest of all Roses, but perfect form, regular, compact, fairy-like flowers, fully double and very fragrant. Flowers in wreaths and clusters, almost covering the whole plant; color cream rose, flushed peachy red.

Perle D'Or—Beautiful light yellowish salmon, deeper in the center, with small white edge. Blooms in clusters, medium size, of fine form and texture, petals are slightly imbricated and overlap each other, giving the flowers a very double appearance.

Gloire des Polyanthas—A beautiful dwarf variety, with quite small flowers, which are prettily cupped. A real "Fairy Rose." The color is a bright pink, with a red ray through each petal; quite distinct.

Blanch Rebatal. (The new Crimson Flowering Polyantha.)—Plant vigorous, but compact in growth. It blooms constantly and profusely during the whole season, and in color is entirely distinct from all other Polyanthas. It blooms in large clusters, bearing from thirty to forty flowers on each shoot; color deep crimson, flushed with rose.

GERANIUM.

THE WONDER.

GERANIUM, THE WONDER.

This new Geranium, without doubt, is the finest that has ever been offered, came from France in a lot of fine sorts, and is supposed to be a sport from the scarlet Geranium, Athelete.

It being so intense in color, such a wonderful bloomer and strong grower that it was kept separate and styled "The Wonder," from the fact that every one who saw it pronounced it wonderful.

The artist has copied exactly in size, an ordinary truss. The flowers are the most intense, dazzling scarlet, and are borne in trusses of enormous size, measuring from 18 to 20 inches in circumference with single florets measuring 7 inches in circumference. The foliage is fine, and rich in color, and in strong contrast to the brilliant scarlet flowers. As a pot plant or a bedding Geranium, it has no equal. **Price, 20 cents each; 12 for $2.00.**

THE WONDER.

NEW GERANIUM, M. POIRIER

Is a perfect marvel among Geraniums, and is the best of the new dwarf-growing sorts It is very dwarf and compact, and of a very branching habit. The flowers are produced in the greatest profusion upon large sized trusses, and the color is like the beautiful Aurora, is unique and changable, some trusses being of a deep rosy-salmon, streaked and veined carmine, with deep magenta color; others with the outer petals almost a pearly white with carmine color. No two trusses alike. Taken as a whole it is the first of the Bruant race in this color we have seen. This beautiful novelty for **20 cents. 12 for $2.00.**

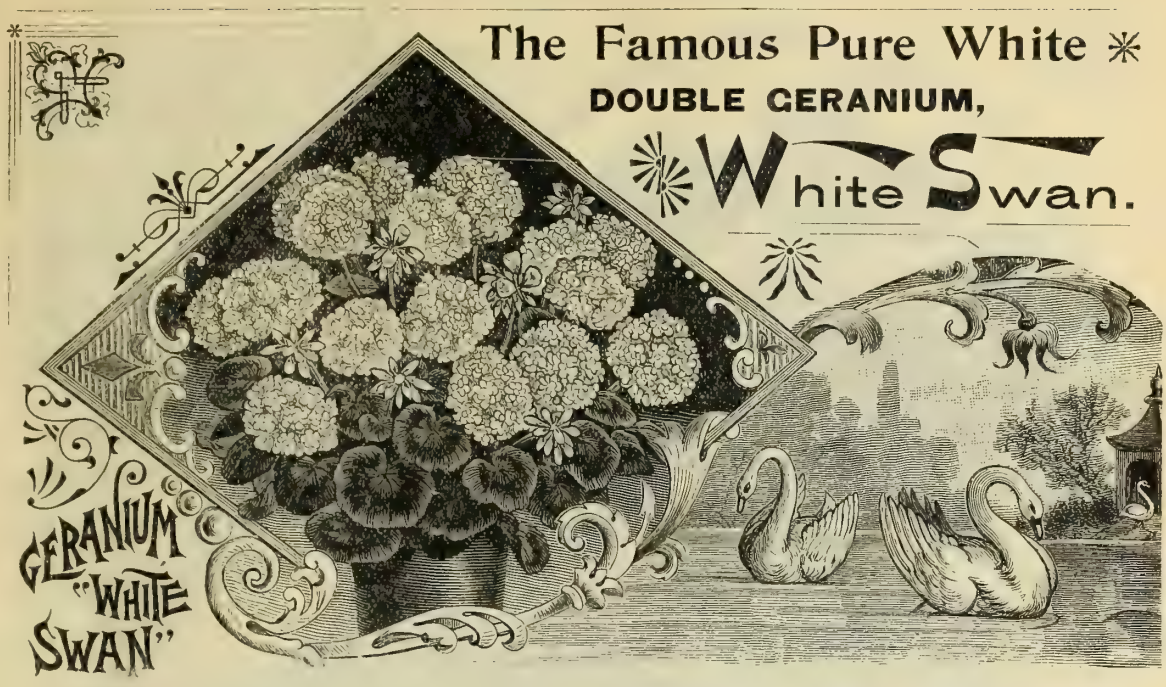
The Incomparable Single Flowered

Salmon Geranium, Mrs. E. G. Hill.

There has never been a salmon-colored Geranium to equal this, although it has been introduced some four years ago, and it is rarely offered in wholesale lists, because it is at once picked up by market-growers. We have a nice lot growing, and think we will be able to meet the demand. For those unacquainted with the variety we would say it is a most distinct and pleasing shade of salmon, with light shading to the center. Trusses are large, and composed of an immense number of florets. The finest salmon-flowered Geranium to date. **Price, 20 cents; 12 for $2.00.**

SPECIAL OFFER—These Three Wonderful Geraniums for 50 Cents.

The Famous Pure White DOUBLE GERANIUM, White Swan.



In the White Swan we have the finest double white Geranium ever introduced, and unlike other double white Geraniums, it is suitable for bedding, and flowers as profusely as the best single varieties. It is a dwarf, compact-growing variety, with handsome, banded foliage, of a light, healthy green. The perfect double flowers are unsurpassed for cut flowers. They are borne in large trusses, and are spotless, snowy-white, retaining their pure whiteness even in the heat of Summer. In the Fall the plants can be taken in the house, where they will again bloom profusely. One hundred and four trusses and buds have been counted upon a single exhibition plant. The White Swan will astonish all who grow it. **Price, 10 cents each; 3 for 25 cents; 100 for $5.00 by express.**

Another characteristic of this new Geranium is its heavy, dense foliage, neatly zoned, and stands our hot sun admirably, and for bedding, is without a rival.

CENTAUR

THE LOVELY DOUBLE PINK GERANIUM, * *

EMILE DE GIRARDIN.

No one who has not seen this lovely pink Geranium as it is grown in the beds and borders of the Northern parks can imagine the beauty that lies in a flower of that color. Of a deep soft rose, rather that pink, but fresh and bright, the blossoms are perfect in form and barne well and clear above the foliage. The long beds of it seen in the Chicago parks, with their edgings of "Golden Bedder" Coleus, formed the most beautiful Geranium planting we have ever seen, and the combination is delightful. It stands the sun perfectly, and is, in our opinion, the finest double variety of any color for massing, when a delicate and artistic effect is desired. **Price, 15 cents; 4 for 50c.**

The new mammoth Centaur Double Geranium is the best large flowering double pink Geranium in cultivation. Any one seeing a specimen truss can not fail to become enthusiastic over it, pronouncing it the largest and finest Geranium in cultivation. The new Centaur is remarkable for its stout, robust growth, and for its immense trusses of bloom. The foliage is very large, and of a light, green color, with a band of darker green encircling each leaf. The flowers are borne on bold trusses of enormous size, almost spherical, and as many as sixty florets have been counted on a single truss. The color is the richest deep pink, shading near the base of the petals to light pink, the base of the upper petals creamy-white. In most large flowering Geraniums, when in full flower, the center of the truss is faded while new florets are coming into bloom around the circumference, but in the Centaur most of the florets bloom at once, and when in full bloom the truss is almost a spherical ball of rich, glowing pink. **Price, 20 cents each; three for 50 cents.**

THE NEW FRENCH PEACH BLOSSOM Geranium Set.

The greatest novelty in new Geraniums that has appeared for a number of years is undoubtedly Souvenir de Mirande. It is entirely distinct from any other variety shown, and is quite different from the usual marked varieties that have from time to time made their appearance. It has round florets, upper petals cream white with a distinct rosy-pink border, lower petals salmon-rose, streaked with pure white. A most novel color. It is extremely free flowering, and produces fine trusses of its magnificent blooms. **Price, 10 cents.**

SET OF THREE PEACH BLOSSOM GERANIUMS FOR 30 CENTS.

The Greatest of all Geraniums, BRUANT.

The Giant among Geraniums. We consider this the best bedding Geranium of all varieties. The plant rebounds in vigor; foliage strong, striking and of perfect habit. Color of the flower is a bright vermillion red of most pleasing shade. The flowers are absolutely perfect in shape, color and make-up; trusses exceptionally large, and borne in immense spherical balls, often measuring eight inches in diameter. It makes a compact, dense growth, and has all the qualities that go to make the perfect bedder that it is. Fine also in pots. It is of the semi-double type, the most striking of all, only the double form takes place near the base of the petals, allowing them free development, and at the same time showing the semi-double type. It embodies all the advantages of both types, the perfect development and free blooming qualities of the singles, the fullness and beauty of the doubles, without their great fault of having the florets damp and drop off and become unsightly when planted outside. We have an immense stock of this variety. Try a dozen or more of this beautiful Geranium in a bed or clump, and it will delight you the summer through with its handsome foliage and pleasing color. **Price, 10 cents each; three for 25 cents; twelve for $1.00; one hundred for $5, by express.**

DOUBLE SCARLET GERANIUM, FIRE BRAND.

Color dazzling flame scarlet, fine, prominent truss, flowers large and of great substance, an excellent bedder and pot plant. For planting in masses we have seen none to equal it. Another thing in its favor, it takes fewer plants from its sturdy branching habit to give effect. **Price, 15 cents each; four for 50 cents.**

DOUBLE GERANIUM, GLOIRE DE FRANCE.

Large, round florets, of waxy appearance, colors carmine and white, with carmine center, each petal delicately edged with carmine. An excellent pot variety, to which its habit is finely suited. It is one of the prettiest Geraniums we know. This is the most beautiful of the parti-colored Geraniums, which appear so bewitching to the eye. The very brightest color imaginable. **15 cents each; four for 50 cents.**

THE BEAUTIFUL NEW SINGLE WHITE GERANIUM,

Marguerite de Lavres.

Marguerite de Layres.

MARGUERITE DE LAYRES.

We have a most beautiful pure white zonal in this splendid variety. It seems as though Messrs. Bruant and Lemoine were running a race on the single white Geraniums; for in this and the variety La Vestale of Lemoine, we have two superb varieties for this year. There is little choice between the two, but if anything La Vestale perhaps leads for the open ground, whilst Marguerite de Layres is the finest pot culture. **Price, 15 cents each; two for 25 cents; five for 50 cents; twelve for one dollar.**

THE FINEST DOUBLE WHITE FOR BEDDING OR CEMETERY PLANTING,

LA FAVORITE

In this new Geranium, introduced last year, we believe we have the finest double white Geranium in cultivation. The single Geraniums are valuable for bedding, and present a beautiful effect in massing, but can not be used for cut flowers on account of the petals falling. On the other hand, most of the double varieties of Geraniums are useful for cut flowers. In La Favorite we have a pure, double, white Geranium, as free-flowering as the single varieties, and which can be used for planting in beds, for furnishing a supply of beautiful white flowers for vases, etc., or for pot culture for Winter forcing. It is a dwarf, compact-growing variety, the foliage is a bright, healthy green, with a band of darker green encircling each leaf. The flowers are borne in large trusses, of the purest snow-white, retains this pure whiteness even in the height of Summer, and for Winter blooming is all that can be desired. While "White Swan" is a beautiful variety, yet La Favorite is quite in advance of it. Do not fail to add this charming variety to your collection. **Price, 10 cents each, or $1.00 per dozen; $5.00 per hundred, by express.**

GOLDEN TRIO.

CLOTH OF GOLD.

Artists in color who have for the past two seasons seen it in flower declare it to be of rich, golden orange shade, of the most brilliant hue—we need not add another word as to its color. The flowers are of the largest size, most perfectly shaped, in large trusses, opening freely at all seasons. The habit and growth is as free and robust as in any other variety. It is well marked in character and distinctness. **Price, 15 cents each.**

BED OF GOLD.

Those who have tried such Geraniums as Progressive and Golden Dawn will find this variety far in advance of all other existing kinds of orange scarlet. It is of a rich, golden orange shade, its large trusses opening freely, the habit being as free and robust as that of any other variety. **Price, 15 cents each.**

GILDED GOLD.

In this variety we have combined all the qualities that enter into a Geranium of the first order. It is a strong, vigorous grower, profuse bloomer, finely formed trusses of the largest size, borne well above a luxuriant foliage. In color it stands unequalled, being an intense yellowish orange scarlet, though by no means yellow, yet with a decided yellowish cast. **Price, 10 cents each.**

One Each of the Golden Trio, 30 Cents.

THE NEW RED

Chrysanthemum,

GEORGE W. CHILDS.

THE NEW YELLOW

Chrysanthemum,

Eugene Dailledouze.

No Chrysanthemum created such a sensation as did this, when exhibited at Orange, N. J., and Philadelphia, last year. The flowers are of massive size, reflexed, with broad, stiff petals, color deep, rich, velvety crimson, with no shade of brown or chestnut. Flowers borne on strong, stiff stems. The foliage resembles Cullingfordii, but it is much heavier and darker. They grow close up to the flowers, which gives the plant an elegant appearance. It is a fine, strong, clear grower. It was awarded the J. R. Pitcher Esq., gold medal at Orange, N. J.; the silver medal by Pennsylvania Horticultural Society; the medal of excellence, American Institute. It was exhibited at Indianapolis this year over eight inches in diameter. No chrysanthemum can compare with it for color, size of flower and growth.

INTER-OCEAN.

Owing to somewhat limited quantity, this variety could only be staged at Chicago, where the vase of six blooms took first premium for best any color.

This is a grand novelty of the general type of V. Morel, from which it is a seedling. The color is a delightful, glistening, pearly white, with light suffusion of pink. Petals of great substance, recurving, forming a flower one-third larger than the usual V. Morel. The stems are very stiff, the foliage extremely handsome, and carried close to the flower.

BEAU IDEAL.

According to our judgment this variety is as good as any of the foregoing, or we should not offer it here, as this year we had decided to list only those sorts that are away above high water mark. Beau Ideal is a bright rose pink, without touch of lavender shadings. The form is a somewhat flat incurved, the outer petals horizontal, showing a lighter shade. The petals are broad and of good substance, flower of fine size, stem stiff, foliage first-rate. A good grower; everything that can be desired as a cut flower. We know of no variety that will compare with it in purity and brightness of tone, while in size and general make-up it is as good as the best.

We consider this the crowning glory of the year in new Chrysanthemums. Everyone wants a grand yellow—large, full, double, glowing in color, stiff stem and good foliage, and above all, a free, easy grower—and here it is in Dailledouze.

There is nothing brighter or clearer among yellows; the center is folded close, like Kioto, the outer petals are broad and incurving, and of great substance. It is full to the last degree, of great depth, and perfect in form. The beautiful Rookwood vase for best twenty blooms on long stems was won by E. G. Hill with vase of E. Dailledouze. Without question it was the finest vase of bloom in the show. It was an easy winner. Also, Columbian Medal at Chicago, best yellow; Blanc prize, at Philadelphia, best yellow; first premium at New York, best yellow.

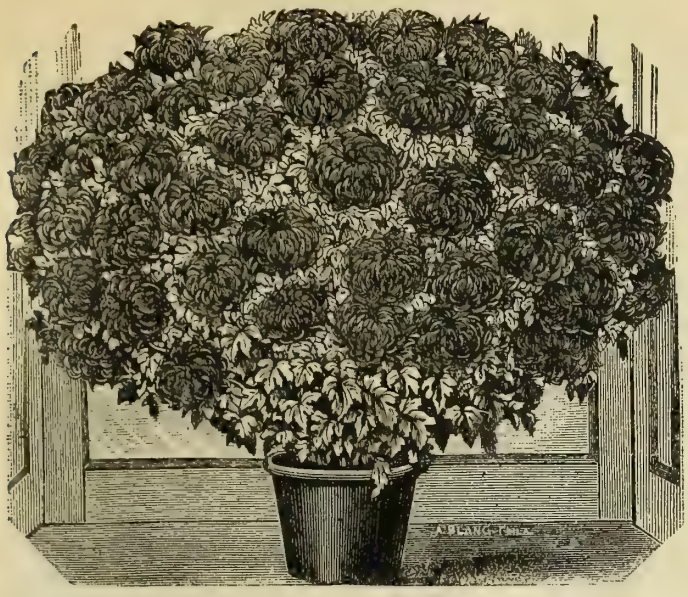
ABRAHAM LINCOLN.

This magnificent new variety is of a Rich cream color; the petals are trumpet-shaped, with Elkshorn tips, and are arranged to form a perfect half ball; one of the largest among Chrysanthemums, totally distinct, and of the grandest build. A half dwarf—stocky, strong grower. A sensational variety, and is sure to please, being of a new type.

CHALLENGE.

The great golden globe Chrysanth, "Challenge" is a late variety, being in full perfection November 25th to 30th. Before that time the center florets have not taken on their true character, although it is in grand condition throughout the month. The flower is a perfect globe of gold, which finally shows a pointed center. The color is bright yellow, the form quite as deep as wide, the stem very strong, foliage extra good, and a somewhat dwarf grower. Needs hardly any tying up. The long looked-for ideal yellow, both for exhibition and commercial purposes.

The Great International Prize Set for $1.00.



SPECIMEN PLANT OF CULLINGFORDII.

CHRYSANTHEMUM

CULLINGFORDII.

Reflexed; exceedingly brilliant crimson, richly shaded with scarlet. Florits are of a beautiful, rich velvety texture. One of the very distinct and noted sorts. This is one of the finest red Chrysanthemums in existence, and too much cannot be said in its praise. **Price, 15 cents each.**

Golden Wedding—The grandest yellow offered. This fine variety swept everything before it at the New York and Philadelphia shows. In color. it is deep bright gold of shining texture; is very large in size; the petals are both long and broad, and channeled lengthwise; a perfect Japanese incurved of most beautiful form; very free in growth. A first class exhibition variety. **Price, 15 cents.**

Chas. Davis—An English sport from V. Morel, which it resembles in all save color, which is a terra cotta or old rose, shading to clear yellow at the center. Like V. Morel, it undergoes a great change in color as it matures, and is often found a clear yellow, which led to its being characterized as the "Golden V. Morel." A grand exhibition sort. **Price, 15 cents each.**

Good Gracious—Another introduction from Japan, and so remarkable for size as to suggest its name; the first sight of it usually brings forth an exclamation of admiration. The color also is unique, being a delicale shade of peach pink throughout. The form is remarkable, the petals are incurved and twisted, overlaping each other in irregular fashion, and resembling talons. Of all the splendid varieties introduced from Japan this is perhaps the most remarkable for size, form and color, and stands alone in its unique beauty, there being nothing at all approaching t. Price; **15 cents each.**

Mrs. E. D. Adams—Flow r ver large, petals of medium width, very long and twisted; the outer ones swirled, as if the flower had been turned swiftly on the stem. Color a pure white. One of the best and most distinct white Chrysanthemums in cultivation. Specimens often measuring eighteen inches over the flower from tip to tip of petals. Makes a grand bush plant. Has won fourteen first prizes, **Price, 15 cents each.**

THE QUEEN

THIS superb Chysanthemum won the first prize at the Madison Square Flower Show as well as all other eastern exhibitions, and made a clean sweep of it in the West. This grand double white is of the largest size and of great substance. Very rounded in form, incurving, and full, as well as wonderfully robust in its growth. So far is it in the lead of all white Chrysanthemums. **Price, 15 cts. cents.**

Yellow Queen—(May.) The finest very early variety ever introduced, having been cut for the past two seasons in fine condition on the 10th of October. Very large, clear bright yellow with extra stout stem and foliage; the plants averaging two and a half feet high. It also develops its flowers to perfection in open air without protection. Awarded certificate of merit at New York show, 1892, the blooms at that time having been kept in the cellar for two weeks. Best as crown buds. **Price. 15 cents each.**

Pres. Wm. R. Smith—Color of Daybreak carnation, a pure self pink; very heavy in substance, on stiff stem; very free in growth and also free in propagation; the form of the flower is very beautiful in all its stages; it opens with a center incurving in a circle enclosed in broad outer petals. It gradually assumes the true Japanese form, rounded and deep, and this gradually changes to the informal reflexed; perfectly double. **Price, 15 cents each.**

Amber Queen—Soft amber with deeper shadings; of exquisite form and very full; petals reflexing till the depth is wonderful, while the center is still finely rounded. Of fine, free habit, and of easy cultivation. A Chinese reflexed variety of good size for the section. **Price, 15 cents each.**

Ivory—Unexcelled for pot culture or cutting; pure white flower of exquisite form and finish. Has been shown in grand shape at all recent exhibitions; it is especially noticeable for its grand globular form, its dahlia-like petals and absolute purity of color. **Price, 10 cents each.**

Certificate, Indianapolis, Nov. 8th, 1893.

Certificate, Philadelphia, Nov. 8th, 1893.

THE GREAT COLUMBIAN NOVELTY,

MRS. E. G. HILL.

Specimens of this fine new early pink Chrysanthemum were passed upon by the judges at the World's Fair October 16, and the exhibitor was awarded a medal and diploma, the points noted in the latter being earliness, size, form, color and vigor of growth. It is a seedling from Puritan and Mrs. Alpheus Hardy, and has the fine form of the latter variety, but the color is a beautiful pearly pink. Flowers were sent to this office at the same time, and they were certainly magnificent blooms, the best we have ever seen at this season of the year. Each of the blooms sent us were on stems exceeding four feet in length and clothed with handsome foliage.—*American Florist.*

Chicago Notes.—Quite a sensation has been caused by the new early pink, Mrs. E. G. Hill, grown by E. G. Hill, of Richmond, Ind. A limited number of these flowers have been received this week; they are very much admired, and are really the only good pink now obtainable. The flower is very large, incurved, color when fully open a clear pearly pink.—*American Florist.*

THE FAMOUS "OSTRICH PLUME" SET.

OSRTICH PLUME CHRYSANTHEMUM.

The New White Ostrich Plume Chrysanthemum,

Enfant des Deax Mondes.

(Child of two Worlds.) A greatly improved Mrs. A. Hardy. Pure white. This grand white sport from L. Boehmer was well received, having many admirers at the shows. Like the parent is a strong grower of good habit, and is considered the best white of the hairy type, and well deserves a prominent place in any set of this peculiar style of the Chrysanthemum. **Price, 20 cents.**

NEW ROSY-BLUSH "OSTRICH PLUME" VARIETY.

WM. FALCONER.

The color is an exquisite shade of rosy blush, changing to a delicate flesh pink, as the flowers advance in age. The delicacy of tinting is without a parallel in any class of flowers within our knowledge. The soft feathery growth peculiar to the "Ostrich Plume" class is even more pronounced than in any of its predecessors, and in this variety it has an additional charm. The growth referred to is usually a shade lighter than the body of the flower—the effect produced being as if a soft tinted lace-like web or veil was thrown over the blooms; a unique and beautiful addition to its appearance. **Price, 20 cents.**

The New Pure White, Sweet-Scented Ostrich Plume Chrysanthemum,

MISS ANNIE MANDA.

Flowers very high and compact, perfectly double, incurved, of the purest white. The numerous petals are well furnished with long, glandular hair-like out-growths, giving the flower a unique appearance, far surpassing the celebrated Mrs. Alpheus Hardy. The plant is of a strong and vigorous habit, carrying the flowers erect on a stout stem. Another recommendation is that the flower is sweet-scented. **Price, 20 cents each.**

The New Golden-Yellow Ostrich Plume Chrysanthemum,

W. A. Manda.

The finest Ostrich Plume variety of this color. The flowers are very large, of a clear golden-yellow—the hairy growth being much more fully developed than in the older varieties of this type. It is a much better pot or specimen plant, having a number of flowers on the smallest plants. The plant is of vigorous growth, and the flowers are borne upright on a stout stem. **Price, 15 cents each.**

The Pink Ostrich Plume Chrysanthemum.

LOUIS BŒHMER.

The "Louis Bœhmer" has the same wonderful hair-like growth or excrescence that appeared for the first time in the white variety, "Mrs. Alpheus Hardy," but it differs from it in color, having a most beautiful shade of lavender-pink, shaded with silvery-pink on the ends of the petals. The flowers are splendidly incurved, the inside of the petals are a deep rose, so that the contrast between their inner and outer surface is decided, and adds greatly to the appearance of the flowers. For evening wear the "Louis Bœhmer" will be sure to be in demand, as its color under gaslight is a soft, pleasing pink **Price, 15 cents each.**

The White Orange Plume Chrysanthemum,

MRS. ALPHEUS HARDY.

No other Chrysanthemum has created a sensation wherever shown as has this most wonderful variety. The flowers are very large, of thick substance, perfect shape, and belong to the incurved Japanese section, while the color is of the purest white. It is of immense size, broad petals, and incurved, the surface being downy, like loose piled plush. The entire flower stems frosted with glittering white. **Price 15 cents each.**

Price, 15 cents each; the entire set of eight "Acmé" Carnations for 75 cents.

Tidal Wave.—Flowers very large and perfect in form. Color a bright rosy pink, with salmon shading when the flowers are fully expanded. A very healthy grower and remarkably free bloomer. Plant dwarf, growing about fourteen inches high. This we consider one of the best pink varieties ever offered, and an excellent variety for pot culture.

"Silver Spray."—We believe this to be the finest new or old White Carnation in cultivation. The flowers are of the purest white, with petals of great substance, making it one of the best. It will keep a long time when cut. Fragrant and very productive of bloom and, in all, one of the best Pinks for winter blooming.

Attraction.—Stem longer than the average, and bearing a flower of new shade which catches the eye at once; we think it best described by the words rosy scarlet; is at once soft and brilliant; flower of good size, borne in the greatest profusion and deeply fringed.

Golden Gate.—This is a pure yellow Carnation, of strong growth and very profuse flowering. There is no stripe at all in it, being a straight out-and-out deep, rich golden yellow, without any other color whatever, under any circumstances. The florets are large and double as in Buttercup, and taken all in all it is the very best yellow Carnation out.

Mrs. Hitts.—A pleasing shade of rosy red. A fine improvement on the grand variety, Tidal Wave, being of a brighter shade and producing flowers much more freely than any other variety that we know of. Flowers of large size and fine form.

Tidal Wave and White Dove.

Boule de Neige.—Pure white, large-flowered, and of very heavy texture. One of the very finest white varieties, and much used by florists as a valuable cut-flower, as it keeps a long time after being cut.

Fred Dorner.—A deep velvety-red, flowers extra large, seldom less than three inches across, constant free bloomer and vigorous grower. The petals are beautifully shaped and finely fringed. It is of immense size and deep, rich color.

Lizzie McGowan.—This grand Carnation is a cross between Hinze's White and Peter Henderson. It is a splendid grower, producing very large pure white flowers that are beautifully fringed, delightfully fragrant, and all borne on long, stiff stems. We are confident that this is the best white Carnation ever introduced.

THE BOUQUET COLLECTION OF NEW CARNATIONS.

Price, 15 cents each; the entire set of eight "Bouquet" Carnations for 75 cents.

Grace Darling.—Color a very delicate peach blossom, shading lighter at the edge of the petals, and having that peculiar luminous effect in the center of the flower, the secret of beauty in a pink variety.

White Dove. — This beautiful white Carnation is remarkable for its extremely vigorous growth, very large flowers, perfect shape, purest white. Indeed, for size and freedom of bloom, purity of color, which is immaculate, sweetness of perfume that is delicious, vigorous growth, this variety has no equal. The best white by far out of a dozen varieties we have of that color.

Nellie Lewis.—This grand Carnation is a marvel of beauty. We have had dainty pink, brilliant red and dazzling white for years, but never until now A pink variety that would arrest attention and cause every one to exclaim: "What an exquisite shade!", A bowl of them, used at a dinner a short time ago, lighted up the entire table.

J. J. Harrison.—The "Pink of Perfection." Probably the most beautiful Carnation yet introduced and must become very popular. flowers are pure satiny white, and marked and shaded with rosy pink, good size, perfect form, never bursts. It is the strongest and sweetest scented Carnation we know. A perfect beauty.

Buttercup.—This is one of the choicest novelties in Carnations, and deserves a place in every collection. Its color is a deep, rich golden yellow, like Marechal Neil Rose, with a few clear streaks of carmine, making a beautiful contrast. The flowers are large and very double.

Ben Hurr.—Grace Wilder pink of even bright shade; flower large and of good substance and elegant substantial form, nicely fringed; stems long and stiff, very free; a bowl of fifty of these blooms exhibited by Mr. Dorner at Indianapolis attracted universal admiration, and was awarded certificate of merit.

"Daybreak" Carnation. — Too much can not be said in praise of this grand Carnation. The color is exquisite, a charming shade of flesh pink. It was this delicate shade which suggested its name of "Daybreak," because of the similarity to the first faint tinge of pink seen in the eastern sky at sunrise. "Daybreak" became so popular among flower lovers that the blooms readily sold for more than any other variety in the market the past season. The growth of the plant is vigorous and healthy, and the flowers possess the Carnation fragrance in a marked degree.

W. A. Scott.—This is in style of growth between the tall-growing Richmond and the more dwarf Spartan. Growth vigorous, very free blooming from early to late; foliage not quite as heavy as that of Richmond. Flowers large and non-bursting, of a deep Grace Wilder pink, a little irregular, but not to any disadvantage; it helps to overcome the sameness and stiffness which is so often objectionable in a bunch. Stems long, of good strength, but seldom branching. A good keeper.

DEAR SIRS:

Morrison, Iowa, Feb. 20th, 1894.

I received the box of plants yesterday in fine condition and am much pleased with them. I thank you for your kindness in sending so many extras and also for your promptness.

Flowers large, finely formed—fringed and purest white; far freer in bloom than either of its parents. **Price, 20 cents each.**

Flower stems long and strong, carrying the large, finely formed flowers with scarcely any support, of good substance and excellent keeping qualities. Calyx never bursting Very free; blooming from November to July. **Price, 20 cents each.**

The flowers are of large size, good form, and grown on very strong, stiff stems. Calyx never bursting. Keeping qualities excellent. Growth, strong and healthy, blooming from early to late. If of a solid color this variety would prove the best pink in carnations, although in a bunch the variegation is little noticed. **Price, 20 cents each.**

The New Columbian Carnation Set for 75 cents.

American Flag—This grand novelty is a sport from that fine standard sort, "Portia." Vivid scarlet and purest white, and at first sight instantly recalls our national flag, hence its name. Just at the present time, when the people throughout the country are vainly seeking for an appropriate flower acceptable to all as our national emblem, nature has opportunely come to our assistance by presenting us with this grand flower—the product of American soil—which seems specially created for that purpose, uniting the red and white in the flower with foliage of metallic blue. **Price, 15 cents.**

Edna Graig—The very finest Carnation of Wilder pink yet introduced; of largest size, with heavy fringed petals. The flower is produced on long, stiff stems, and has never shown a sign of disease; calyx very strong. It is an all-season bloomer, the blooms taking the Madison Square cup in November, and those taking the Graig cup at Philadelphia, in April, were borne by the same plants; its lasting qualities, both cut and on the bushes, are wonderful. **Price, 15 cents.**

Dr. Smart—Of the same dwarf habit as Spartan; healthy, vigorous growth, blooming from early to late. Flowers medium to large and grow mostly one on a strong twelve to fifteen inch stem; of a peculiar pinkish cream color striped with crimson; calyx strong, never-bursting. OUR BEAUTIFUL, * *
New Bedding Coleus.

THE COLEUS will give more pleasure at less cost than any other plant. Their varied tints of crimson, gold, bronze and green, and richly blotched, veined or margined, produce a brilliancy of coloring unequaled. The Coleus is the gardeners paint-box, bearing all the colors on its leaves, ready to be disposed in whatever ornate and parti-colored designs we may choose to display upon our lawns and parterres. In this field there is the greatest opportunity for an interesting exercise of the ornamental taste possessed by all flower lovers. The style is very appropriately called "carpet gardening." Whoever has been in our large city parks will never forget the little ornamental bed curving and quaint designs and mingling arabesques of orange, blue, canary yellow, scarlet, silver-white, claret, pale green, purplish-black and olive—that looks like vari-colored rugs spread at short intervals on the smooth lawn. Sometimes one large circular bed is filled with maroon-leaved Coleus with very striking effect. Plants should be set about a foot apart, so that when the size of the bed is ascertained it is easy to figure how many plants are needed of each kind in a row. We have a collection of two hundred kinds of the most distinct sorts out. Leave the selection of varieties to us, as it is hard to describe the various tints. **Price, 5 cents each; twenty distinct varieties for $1.00; by express, thirty for $1.00. We will send twenty choice named Coleus, by mail, prepaid, for $1.00. All good bedders, standing the hot sun without losing their colors. Price of Coleus by the hundred, when sent by express, $3.00.**

A climber from New Mexico, with beautiful rose-colored flowers in racemes two feet long. CYCLAMEN,

Or Persian Violet.—New Improved.

There is no more ornamental plant for greenhouse or parlor culture than the Cyclamen. It grows readily, blossoms freely, and remains a long time in flower. The soil should be equal parts of turfy loam, leaf mould and silver sand. Put in pots three times the diameter of the bulb, in October. Keep them in a cool, light place, watering lightly until growth begins. Then water freely and give plenty of light and air. On the approach of cool weather remove to a warmer situation, the parlor or greenhouse, but keep them near the light. The whole secret of growing Cyclamens to perfection is light, air and low temperature. **Small plants, 10 cents; strong bulbs, 25 cents.**

NEW EVER-BLOOMING DWARF CALLA.

It is a bulb which has come to stay, and finds its way rapidly in every collection of flowers. Its flowers are enormous, fully a foot in length. Color clear, coal black, so intense that it really shows a brilliancy, and, as may well be imagined, it is a flower of the most striking oddity and beauty. The bulbs are large, and should be potted in the Fall, and when growth commences set in a window. After blooming, the foliage will die down, and the bulb hould be kept dry for planting again in the Fall. It is a native of the Holy Land. It continues growing and branching in this way until the vines are a solid wavy mass of the most elegant foliage and flowers. The leaves on the young growth are exceedingly handsome, being of a deep-sea green color, ribbed and rayed on both sides. The flowers are borne in large, drooping clusters, and are very large, long and graceful; buds, tubes and sepals being bright rosy scarlet, while the corolla, when it first opens, is a deep, rich violet-purple. **Price, 20 cents each.**

Mrs. K. Respectfully,

A RARE OLD FUCHSIA,

Fulgens.

THIS grand old Fuchsia has been so long neglected that most flower lovers are not aware of its existence. Who ever heard of a Fuchsia having leaves over six inches long, and flowers from four to five inches long, with tuberous roots like a Dahlia. This beautiful variety was introduced from South America in 1837, and we are indebted to it, more than any other variety, for the many beautiful varieties we now have, as they were originally produced by hybridizing it with other species. It is of the easiest culture, requiring the same treatmeut as other Fuchsias. No plant will attract more attention than a well-grown specimen of Fuchsia Fulgens. Its clusters of long, drooping, tube-like, brilliant flowers, and very large, green, foliage, gives it a most striking and beautiful appearance. The flowers are four inches or more in length; tube and sepals bright rose; corolla brilliant carmine. It blooms quite freely, plants in two-inch pots, frequently producing flowers; but large, well-established plants will bloom more freely and produce larger clusters. Having tuberous roots it is easily kept over Winter by storing the roots under the bench in the greenhouse or in a cellar, where they will not freeze. **Price, 20 cents each.**

Fuchsia Fulgens.

NEW DOUBLE WHITE FUCHSIA,

WHITE GIANT.

It gives us much pleasure to offer this grand Fuchsia. **Price, 15cts. each.**

Lord Beaconsfield.—This is really one of the most charming and desirable Fuchsias in cultivation, and should be better known. The habit of the plant is erect and compact, presenting a decidedly neat and attractive appearance as a pot plant. The fine star-shaped flowers are produced in profusion, and begin when the plants are quite young; from late Summer until Spring. The flowers droop beautifully; they are large, elegantly shaped and of good substance; the calyx is rosy carmine and the corolla brilliant carmine, a lovely combination. This variety is of strong constitution, and easily grown. **Price, 10 cents each.**

New Double Fuchsia, Jupiter.—All lovers of this beautiful class of plants will be pleased to note the addition of another variety of Fuchsia that produced such wonderful large flowers as Phenominal. Jupiter is a sport from that variety, and is similar to it in every respect, except in the coloring of the corolla, which is a beautiful shade of light magenta; with dark crimson veins. **Price, 15 cents each.**

Impatiens Sultana, "The Queen."

TWO NEW IMPATIENS.

THE QUEEN—A delicate shell-pink, tinted salmon, with a silver sheen; very large flower. This is the most distinct variety that has yet been produced. The continuous blooming qualities of this class of plants makes them indispensable for either house or garden decoration, and these two varieties are a garden within themselves. **Price, 15 cents.**

ROYALTY—This is the most distinct and beautiful of all flowering plants of recent introduction, either as a Winter blooming pot plant or for the border in Summer. It is of a compact, neat habit of growth, with good constitution and a perpetual bloomer. The flowers are of a brilliant rosy-scarlet color, of a peculiarly distinct but most effective hue, about one and one-half inches in diameter, and are produced singly or in twos and threes from the axles of the leaves, especially toward the summit of the stems, but so freely that a well-grown specimen appears to be quite a ball of fire. **Price, 15 cents each; the two fine varieties for 25 cents.**

THE CURIOUS AIR PLANT Bryophyllum Calycinum.

A beautiful and strange plant, with thick, heavy leaves, which, if cut and laid on moist soil or sand, little plants will grow from the notches all around the leaf. They grow very thickly to a considerable size, and make a healthy and beautiful looking plant. When in bloom it presents successively two distinct aspects: first, when the calyx develops itself—membranous, inflated, smooth as silk, cylindrical, round at either end, of a pea-green color, streaked with red, increasing in size until it becomes two inches in length. The flowers, borne upon slight pedicals, droop directly downwards, and are swayed by every breath of air like so many Chinese lanterns. It is impossible to describe the lovely tint of the leaves, which are also very prettily scalloped. **Price, 15 cents each.**

THE HARDY CHINESE Matrimony Vine.

The old-fashioned Matrimony Vine was a general favorite more than fifty years ago, but in beauty of flower, fruit and foliage it cannot compare with this superb variety. **It is a most vigorous hardy climbing plant** when trained to an arbor, fastened to a fence, attached to a tree, to the side of a house, the pillars of a piazza, or in any location where a hardy, vigorous climber is desired. It sends out numerous side branches, so that it covers a great amount of space in a short time, and every new growth is at once covered with bright purple flowers, which are succeeded by brilliant scarlet berries nearly an inch long, every branch being loaded with them. The contrast between the glossy, dark-green foliage and shining scarlet fruit is extremely beautiful, surpassing Holly in appearance. It continues flowering and new berries are forming from late Spring until frost. The berries ripen in early Autumn and remain on the vine late into the Winter. The number of our hardy vines which can be grown without danger from frost in our northern states is limited, and none are more beautiful than this or as easy of culture. It will grow and thrive in any situation, either shade or bright sunlight, and will take root in any soil. In fact, nature has given it all the essentials for wide popularity. Valuable as it is for covering fences, etc., it is even more desirable for clambering over stone walls, bare rocks or unsightly banks, covering them quickly with bright green foliage, and later on rendering them objects of beauty with its wealth of scarlet berries and purple flowers. This splendid vine was illustrated and highly recommended in "Garden and Forest," one of the most conservative publications in the horticultural press. **Price, young plants, which will bloom and fruit abundantly this year, 15 cents each; two for 25 cents.**

HIBISCUS.

LARGE GROWING tropical plants with very glossy foliage. The plants, under the hottest sun, produce enormous flowers, in great numbers, and make noble specimens. They can be grown in tubs and kept for years. The blossoms average five or six inches in diameter, and are gorgeously colored. A very good way to make them bloom freely, and to facilitate the lifting in the Fall, is to transplant each plant into a pot two or three sizes larger than it has grown in, then plunge the pot altogether in the ground, the soil to cover the surface one or two inches. Then in the Fall the plant can be lifted without injury. **Price, fine, strong plants, 10 cents each.**

Auriantica—Large, double, orange-colored flowers; an early and profuse bloomer.

Decorus—Foliage very large and lobed; flowers enormous on long stems, of a rosy carmine-color; stamens and pistils very showy; the stigma is large, circular and golden yellow.

Collerii—A remarkably new distinct variety, introduced from the South Sea Islands. Flowers of a buff-yellow, with a crimson-scarlet base, and peculiarly handsome.

Carminatus Perfectus—Full, round flower of perfect shape, and of a rich, soft carmine-rose, with a deep crimson eye. A beautiful free blooming variety.

Sub Violaceous—Flowers of enormous size, of a beautiful carmine, tinted with violet; probably the largest flower of the Hibiscus family, and an unusually free bloomer.

Double Crimson—Two or three inches in diameter, very showy and fine.

Grandiflora—Rich, glossy foliage, blooming profusely through the Summer, literally covering the plant with scarlet-crimson flowers.

Miniatus Semi-Plena—Large, semi-double, brilliant and attractive; bright vermillion-scarlet, ought to be in every garden.

Rosa Sinensis—Flowers red and very large, averaging nearly five inches in diameter.

Rubra—A magnificent double variety with large red flowers.

Versicolor—A variety combining in its flowers all colors of the whole family, being handsomely striped crimson, buff, rose and white.

Double Hibiscus Zebrinus—Petals scarlet, edged and striped with creamy-yellow and white. A unique variety.

The full set of fifteen varieties, including the three new varieties, for $1.25.

NEW HARDY HIBISCUS, "Crimson Eye."

This magnificent Hibiscus is unequaled among hardy plants for gorgeous beauty. It is a robust grower, with dark red stems and foliage. The flowers are immense in size, often measuring TWENTY INCHES IN CIRCUMFERENCE. The color is of the purest white, with a large spot of deep velvety-crimson in the center of each flower. It is a striking combination of color, and one that must be seen to be fully appreciated. A well developed plant will produce several hundred of these flowers in a season. It will succeed anywhere, and is perfectly hardy, blooming the first year from seed sown in the open ground. We offer both seeds and roots. **Price of goodstrong roots to bloom this year, 20c. each; 3 for 50c.**

New Single Hibiscus, Denisonii—The most distinct of all Hibiscus. On account of the difficulty of propogating, it will always be scarce. Color a delicate carmine, and changes to pure white. **Price, 15c. each.**

The Old Hibiscus, Schizopetalus.—A very peculiar and striking species. It differs from all others in the remarkable character of its petals, the pendulus flowers and the long tubular calyx. Its drooping flowers, with reflected orange-red and lascinated petals, render this plant not only a curiosity, but highly valuable as a decorative or bedding plant. **Price, 15 cents each.**

Gentlemen—The plants sent me were received in good condition, as also the extra plants you kindly sent. The latter were unexpected. I thank you. *Yours respectfully.* *W. K. R.*

DOUBLE PINK HYDRANGEA.

A most novel and beautiful style of Hydrangea. The flowers are more properly the bracts, are double and similar in appearance to a polyantha rose. The engraving shows a plant in miniature. It attains a height and width of three to four feet, and when in bloom is covered with its rosy-red double blossoms, which, owing to their double form, remain perfectly fresh much longer than the single ones. This is one of the most distinct and useful plants ever introduced, and should be in every collection. Equally hardy as the other Japan sorts. **Price, 25 cents each.**

HOLLYHOCKS.

Few hardy plants combine as many good qualities or lend themselves as readily to varied uses as the Hollyhock. For planting in rows or groups on the lawn or interspersing among shrubbery they are invaluable. The flowers, which are as elegant in shape as a Camelia, form perfect rosettes of the most lovely shades of crimson, yellow, pink, orange, white, etc. They require a deep, rich soil, and will repay in quantity and beauty of bloom any extra care. We offer a fine assortment in separate colors. **Price, 10 cents each; three different kinds for 25 cents.**

Much attention has been attracted to this Hydrangea the past year from the remarkable flowers produced by it. We consider this variety the most elegant Hydrangea grown, for pot culture or for tubs. It is much handsomer than Otaksa, the foliage being darker green, with black stems, making it very distinct. Flowers rosy carmine, changing to blue, the dark green foliage and purple black stems being in contrast with rosy carmine flowers. **Price, 15 cents each.**

THE HARDY DAY-BLOOMING MOONFLOWER.

IPOMŒA PANDURATA.

This is one of the most rampant-growing vines in cultivation, having a large tuberous root that is perfectly hardy in Minnesota and Canada. The flowers, which are very large, are a pure satiny-white, with a pinkish-purple throat, shading off deeper in the tube. The flowers are usually four inches in diameter—sometimes attain a diameter of five or even six inches. They are produced in large clusters and in the greatest profusion from June to October. A strong plant will give more than one thousand beautiful flowers daily, for months at a time, being well distributed over the plant from near the base to the top, forming usually one of the grandest floral displays ever seen in any country. The root penetrates the earth so deep that it is not seriously affected by drouth or other unfavorable weather condition. **Price, 20 cents each; three for 50 cents.**

THE TRUE MOONFLOWER.

Ipomoea Grandiflora.

This plant has become very popular, and it certainly is a wonderful annual climber. It grows rapidly and blooms profusely. Flowers five inches in diameter, and quite fragrant. A very rapid Summer climber, blooming the first season. No insects attack the leaf, and even if it did not bloom it would be very desirable because of the beauty of its foliage; but when is added to this the wonderful effect of its flowers, which are borne in great profusion, it can not fail to please. The flowers are immense, pure white, sweet-scented, five inches in diameter, borne very profusely, and, as they open at night, are very striking. Being a free bloomer, the effect on a moonlight night is charming. It is a splendid plant for verandas. **Price, 10 cents each; 75 cents per dozen.**

THE SATIN, or Tuberous-Rooted Moonflower.

Ipomoea Mexicana,

This is unlike all others, as it blooms during the day time and has a strong tuberous root, like a Dahlia, which can be wintered in a cellar. Its leaves are also beautifully divided. The flowers are of a violet-crimson color, and looks like a piece of rich satin. It is very rapid in growth, the tubes giving it an early and young start, which makes its season of usefulness the longest of any climber of its class. **Price, 20 cents each; three for 50 cents.**

THE BLUE MOONFLOWER.

IPOMŒ LEARII.

(From Ceylon.) A handsome, quick growing, perennial climber Often flowers in bunches of a half dozen; the flowers are trumpet-shaped, about four inches across, of a rich violet blue, with five purple rays. Grows about twenty-five feet in one season, and is a most attractive climber. **Price 15 cents each; two for 25 cts.**

It is very dwarf, attaining a height of from twelve to eighteen inches. The flowers are larger, of more perfect form and of the purest white. **Price, 10 cents each; three for 25 cents.**

AZALEA INDICA.

One of the most gorgeously blooming varieties, together with the showiest of all green-house plants. The colors of the flower vary from the purest white to the deepest white to the deepest crimson in untold variations. The soil should always be packed hard when transplanted. Their success depends, however, on the degree of moisture in the atmosphere in which they live. We have a number of the best flowering sorts, that will flower finely the coming Winter. **50 cents to $1.00 each.**

THE ORCHID HYACINTH.

(PONTEDERA CRASSIPES.)

A Most Odd, Beautiful and Valuable Plant of Easy Growth.

This is undoubtedly THE plant of all water plants for the masses, not only on account of its uniqueness and great beauty, but the limited amount of space it occupies and the perfect ease with which it is grown. It floats on the water by means of its curiously inflated leaf stalks, which resemble bladders or balloons filled with air. A mass of beautiful feathery blue roots grow downward in the water. It forms a lovely rosette of its curious, shining green leaves, and throws up spikes of the most exquisite flowers imaginable, resembling in form a spike of Hyacinth bloom, but as beautiful as many of the choicest and most costly Orchids. Each flower is as large or larger than a silver dollar, in color a beautiful soft lilac rose, sparkling as if covered with diamond dust. The upper petal, which is the largest, has a metallic blue blotch in the center, and in the center of that a small, deep golden-yellow spot. Our cut conveys no idea of the beauty of the spike of flowers, which is often six or eight inches in length and three inches in diameter. Can be grown in the open air in Summer and in the window in Winter in anything which will hold water. In the window the most beautiful effect is produced by using a glass vessel of some sort, with shells and white sand so arranged in the bottom as to conceal a small amount of soil. In Summer it can be grown in the yard in a pool or tub of soil and water, and will bloom most profusely. **Price, 20 cents each; 3 for 50 cents.**

Hyacinthus Candicans.

This is unlike our Spring blooming Hyacinths. Its leaves are deep green, fleshy, resembling some of the Yuccas. The flowers are white, in handsome, pendulous bells arranged on pyramidal spikes, often reaching the height of five feet or more in strong plants. A strong bulb will give from two to three flower spikes, and these produce from thirty to fifty flowers. The plants come into bloom in July and bloom constantly until October. See cut. **Price, 10 cents each.**

GOLDEN STAR OXALIS. (Oxalis Ortgiesi,)

THE BEAUTIFUL NEW CLIMBING PLANT,

MANETTA BICOLOR.

This is the most beautiful and desirable of all vines, as it can be grown either in the house or garden equally as well. In the house it can be trained about a window, forming a wreath of the most brilliant bloom both Summer and Winter. The flowers are from an inch to an inch-and-a-half in length, of a most intense scarlet, shading into flame, tipped with bright golden-yellow, and are covered with a thick scarlet moss. **Price, 10 cents each.**

Oxalis Ortgesi,

(GOLDEN STAR OXALIS.)

Few new plants will give better satisfaction than this, as it is a perpetual bloomer in every sense of the word. The flowers are 2½ to three inches across, with several rows of large white petals; very durable, lasting much longer than those of the single variety. The plant is perfectly hardy, having stood the past five winters in the vicinity of Rochester, N. Y., without the slightest protection. One of the finest hardy plants for cemetery planting, and excellent for cut flowers. **Price, 25 cents each; five for $1.00.**

A charming basket or pot plant, just brought to notice by the extensive advertising of John Lewis Childs, Floral Park, New York. The superb color, combined with airy grace and beautiful form, goes to make a flower which is in beauty perfection itself. The plant seldom grows over ten inches in height, but inclines to a trailing habit, spreading its branches out over the ground, or drooping over the sides of the pot. TIGRIDIAS.

THERE HAS BEEN great improvement in this flower during the past few years. Not only have the yellow and crimson ones been greatly improved in color and size, but we now have to offer a grand new white variety, which is the finest novelty sent from Europe in several years. The Tigridia should be planted in the open ground in May. They commence blooming early in July and produce an abundance of gorgeous flowers till October. Late in autumn the bulbs should be lifted, dried and stored in the cellar like Gladiolus. They are one of the easiest plants in the world to cultivate, always sure to bloom abundantly in any situation, and the large, showy flowers are sure to attract and please. **Price, fine mixed varieties, 5 cents each; six for 25 cents.**

THE BEAUTIFUL NEW

Swainsonia Galegifolia Alba.

WE bring prominently before flower planters this very distinct climbing plant for house culture and protected spots in the garden. The Swainsonia belongs to the Leguminosæ, and is a native of Australia. The habit of growth is extremely graceful, and the vines, trained up at the side of a window or on a trellis, present a lovely sight of light-green, feathery foliage, and a splendid profusion of pure white sprays of fairy-winged flowers, somewhat resembling Sweet Peas in form. Easily grown, and under favorable conditions it is almost a perpetual bloomer. There is certainly no climbing vine for house or conservatory culture to-day that is more desirable than this fine, new plant. **Fine plants, by mail, 20 cents each; three for 50 cents.**

The Hardy Plumbago

Lady Larpent.

This beautiful variety of Plumbago (P. Larpentæ) was first popularly introduced in 1890. Since that time it has so thoroughly pleased all who have planted it, achieved such great popularity, which, coupled with our own thorough tests and observations, demonstrate that it is unquestionably the most distinct and valuable hardy herbaceous plant now in cultivation. The plants are strong, upright in habit, growing to a height of twelve to fifteen inches in compact clumps, and from the middle of July until severe frost are covered with lovely, rich, violet-blue colored flowers, borne in close terminal heads. (We had thousands in bloom on our grounds the past season as late as October 25th.) The foliage is unique, finely serrated and fringing the stems. We heartily recommend this fine variety for edging walks, beds or borders, or single specimens set in mixed flower vases or beds, where they appear in lovely contrast with other flowers. **Price, 15 cents each.**

THE LATEST NOVELTY IN CLIMBERS

The Blue Solanum.

(Solanum Azurem.)

Certainly one of the finest plants lately introduced. Everyone is well acquainted with Solanum Jasminoides, and its merits are greatly appreciated. In "The Blue Solanum" we have a far superior plant in every respect. It is of robust growth, soon making fine specimens that will climb over and cover a porch with the most handsomely cut foliage. In mild localities it is covered during the late Summer months with hundreds of clusters of large, lavender-blue, Wistaria-like flowers, brightly set off with golden stamens, each cluster measuring 15 inches in circumference, and often attaining a length of 12 inches. The flowers are succeeded by bright scarlet berries, remaining perfect for a long time. It is the most beautiful flowering vine that we have seen. A brilliant future stands before it, especially as a greenhouse or conservatory plant. We notice that it is offered in Europe under another name at $1 per plant. Our price is **25 cts.**

EMPIRE STATE.

NEW RASPBERRY KANSAS.

Originated at Lawrence, Kansas, where it has proven itself the best of all black-caps. Ripens just after Souhegan; berries large or larger than the Gregg, jet black, firm, handsome, and of the best quality. Very vigorous growth, which continues through season; holds its foliage until frost, stands drought and cold; exceedingly productive. Fruit firm, carries well to and presents a handsome appearance in the market. From the report of the Pomologist, issued by U. S. Department of Agriculture: "An early blackcap, somewhat resembling Gregg, but the fruit larger and of better color, being almost free from bloom. Although juicy and excellent in flavor, it is firm enough to ship well. The plant seems not only to have unusual vigor, but to withstand the trying climate of Kansas and other states where raspberry culture is carried on with difficulty." **Price, 15 cents each; $1.00 per dozen.**

NEW DEWBERRY LUCRETIA.

In earliness, size and quality it equals any of the tall growing sorts; the plant is perfectly hardy, healthy and remarkably productive, with very large, showy flowers. The fruit, which ripens early, is soft, sweet and luscious throughout, with no hard core; ripe before late raspberries are gone. Should be mulched to keep berries from ground. The most profitable small fruit we cultivate. **10 cts. each; 15 for $1.00.**

NEW JAPANESE RASPBERRY,

Or Wine Berry.

The fruit is borne in large clusters, often seventy-five to one hundred berries in a bunch. These berries are from the time of formation and bloom until they ripen enclosed in a "burr," which is formed by the calyx covering them entirely. When ripe the burr opens, exhibiting a large berry of the brightest, light, glossy scarlet, or sherry wine color. The burrs and stems are covered with a heavy reddish moss, like a Moss Rose bud. The flavor of the fruit is entirely unlike any other berry, being very sprightly, sweet and juicy, having no disagreeable sour, but a delicate and luscious flavor peculiar to itself and superior to other berries. It is very juicy and makes the finest quality of wine. It commences to ripen in the early part of July, and continues in bearing for a long time. It is the most prolific berry known, the bushes being literally covered with its luscious fruit." **Price, 15 cents each; 4 for 50 cents; twelve for $1.50.**

Select List of Choice Flower Seeds.

FRESH, AND TRUE TO NAME.

WE HAVE exercised the greatest care in selecting our seeds, knowing that our future success largely depends on the quality of seeds we send out. The greater part of the flower seed we offer are grown for us by one of the most extensive and popular seedsmen in Germany, while some of them are grown on our own grounds.

Our customers can rely upon getting those of the very best quality and finest strain, as we use the utmost caution to send out nothing but first-class, fresh and true to name. Our packet contains a sufficient quantity for ordinary purposes. Our prices will be found remarkably low—much lower than the same quality can be bought for elsewhere—and our list contains nearly all the choice kinds in cultivation.

..... Flower Seeds are Classed in Three Classes, as Follows: .....

HARDY ANNUALS.—This class includes all the varieties that may be sown in the open ground and will bloom and mature seed the first season.

HALF-HARDY ANNUALS are those varieties that flower and mature seed in the open air, but need to be started in a greenhouse, hot-bed or sunny window.

BIENNIALS AND PERENNIALS.—Biennials are those varieties that do not usually bloom the first season, but are only in perfection the second season. Perennials continue to flower for several seasons. Many of these may be sown and treated the same as Hardy Annuals, but the more tender varieties should be sown as directed for Half-Hardy Annuals.

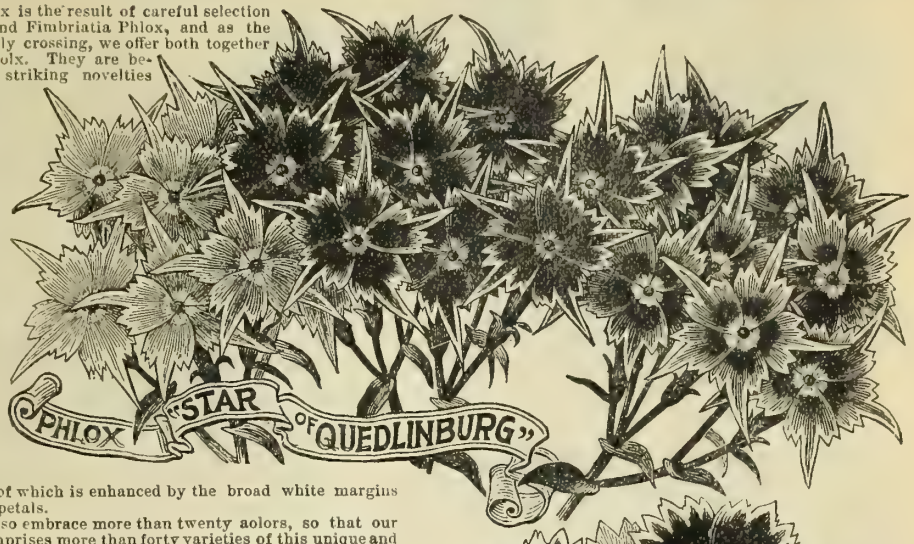
THE ✣ NEW ✣ PHLOXES, ✣ STARRED ✣ AND ✣ FRINGED.



This grand strain of Phlox is the result of careful selection from Star Quedlinburgh and Fimbriatia Phlox, and as the two varieties are continually crossing, we offer both together as Starred and Fringed Phlox. They are beyond question the most striking novelties in Phloxes ever introduced, being of unique and indescribable beauty. In the Fringed flowers the petals are partly fimbricate and partly three-toothed, all distinctly bordered with white, which, together with the bright eye of the center, picturesquely contrasts with the magnificent velvety colors, in more than twenty distinct shades, while many of the flowers are as large as the Grandiflora Phlox. In the Starred Phloxes the pointed central teeth of the petals (five in number) are five to six times as long as the lateral ones, and project beyond them like little spines, half an inch long, giving the flowers a distinctly marked, regular star-like form, the beauty of which is enhanced by the broad white margins bordering the edges of the petals.

The Starred Phloxes also embrace more than twenty colors, so that our **Extra Fine Mixed Seed** comprises more than forty varieties of this unique and strikingly beautiful strain. ✣ ZINNIA ✣ GRANDIFLORA. ✣

The Zinnia is a large, free-growing annual, so easy to grow and so showy that it will always be a favorite. The flowers resemble double Dahlias in size and form. In bloom continually throughout the Summer.

Grandiflora.—Large, double flowering, finest assortment of color **10 cents per packet.**

Dwarf Double.—Beautiful variety of mixed colors. **10 cents per packet.**

SMILAX.

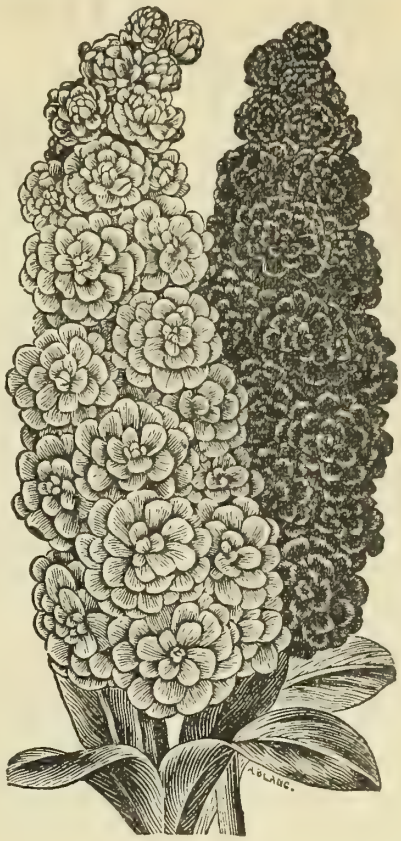
We doubt if one of our customers in a hundred has ever seen a string of Smilax in bloom. Though grown principally for its elegant green foliage, so indispensible for floral work, it nevertheless bears flowers by the thousand, which, for rare and graceful beauty and delicious fragrance, can not be excelled. Smilax requires a nice sunny window and freedom from dust. It grows very quickly from seed.

Smilax.—Extra fine seed. **10 cents per packet.**

Thunbergia--Black-Eyed Susan.

Very fine trailing plants, producing masses of pretty flowers. When allowed to trail on the ground they make a beautiful bed. The colors are delicate and beautiful. **Mixed colors, 10 cents per packet.**

STOCKS.



STOCKS.

The Stock is one of the most popular plants, either for bedding, massing or pot-culture; for brilliancy and diversity of color or profusion and duration of bloom it is unsurpassed. The Ten Weeks Stocks are generally cultivated, and bloom from ten to twelve weeks after being sown. Choice mixed, all choice double, large flowering. **10 cents per packet.**

MARIGOLD.

A well-known, magnificent plant, with handsome double flowers of rich and beautiful colors, and neat, compact, green foliage, producing a splendid effect in almost any situation. The African is the taller and more striking in large beds and shrubbery borders, while the French fills in front, or is used in small beds. Half hardy annual.

Marigold, Large African Mixed—Tall, double; orange brown and yellow; two feet. **Price, 5 cents per packet.**

Marigold, Dwarf French, Mixed—Fine, rich colors; double; one foot. **Price, 5 cents per packet.**

CARNATION

Carnations are general favorites for their delicious fragrance and richness of colors. They are indispensible, both for greenhouse culture in Winter and for the garden in Summer. Carnation, finest German, mixed colors, saved from extra fine double named flowers, **10c.**

HELIOTROPE ✻ ✻ ✻ ✻ ✻ ✻ ✻

A half-hardy perennial, flowering during the whole season; its delightful perfume makes it a most desirable bouquet flower; a splendid bedding plant, or can be trained as a green-house climber. Seed sown in the Spring will make fine plants for Summer blooming. **Heliotrope, finest mixed, 10 cents.**

BEGONIA—VERNON.

This new Begonia is one of the most remarkable floral novelties. It comes absolutely true from seed. The plants grow rapidly and thrive amazingly under our hot Summer sun. It seems that the hotter and brighter the sun the richer are the flowers and foliage. This character makes it of the greatest value for bedding and general culture in the open ground. The flowers are borne in constant profusion and with striking effect, from early Summer until late Autumn. The color is intensely deep red, magnificently set off by the abundant and vigorous foliage, which is waxy and glossy, stained, spotted, and margined bronze-purple. It is so easily raised from seed that we strongly recommend it for every flower garden. **Per pkt., 10c.**

MIMULUS—(Monkey Flower.)

(Monkey Flower.) Showy, profuse flowering plants, comprising numerous varieties, with white, sulphur and yellow grounds, spotted with crimson, scarlet and pink, fine for greenhouse, or moist, shady situations; half-hardy perennials; blooming the first year from seed if sown early; one foot.
